

Opportunities available at Lehigh Career & Technical Institute

With the completion of the modernization/expansion of Lehigh Career & Technical Institute, a variety of options will be available to the students in the nine districts of Lehigh County. The following is a brief description of the opportunities currently available.

Half-day Option

Students enrolled in the half-day program will receive their academic coursework in the sending district and will receive their technical coursework at LCTI. This option will be open to ninth through twelfth grade students. Ninth and tenth grade students will attend either AM or PM session, depending on LCTI and sending district scheduling needs. At this time, there is no district quota limit for eligible spaces for students enrolled in the half-day option.

Full-day Option (Academic Center option)

This option will begin September, 2006. Students enrolled in the full-day program will receive both their academic coursework and their technical coursework at LCTI following the same half-day schedule. An approved joint district graduation requirements has been established. When requirements are met, students will graduate from the sending district. Districts will be provided eligible space quotas each November for the following school term. These quotas will be determined by a formula utilizing a combination of market shares and enrollment history. A maximum of 1600 students can be educated in the Academic Center. Once enrolled, a student maintains his/her placement for three years or until graduation or exiting the program. All academic classes are regular education courses. Special education students will be supported through the co-teaching method.

Career-Academy Program

The Career Academy program is operated as a separate program for at-risk, disruptive youth requiring an alternative education setting. All students enrolled in this program must meet the Act 30 Guidelines for the Alternative Education. The program is operated as a school within a school. This program operates on a one-week of academic course offerings to two weeks of career and technical coursework. A joint graduation requirement for students enrolled in the Career Academy Program has been established and will begin in the 2005-06 school year. All potential students and their parent(s) must attend an in-take conference to determine entrance into the program. Approximately 200-210 students are enrolled yearly in the program. There are no district quotas for the program. **DO NOT USE THE ATTACHED APPLICATION FOR THIS PROGRAM, PLEASE CALL 610-799-1491 FOR MORE INFORMATION ON THE CAP APPLICATION PROCESS.**

Flex Program

The flex program is designed to provide technical coursework to students on a limited schedule. Students typically attend one hour each day at LCTI. Students may attend one or both semesters and may attend for multiple years. Flex students do not attend academic courses at LCTI.

More detailed information about LCTI's enrollment options is contained within the pages of this course guide.

Application Procedures:

Students must have successfully completed the eighth grade in order to begin an LCTI program in grades 9, 10, 11 or 12. Each student must complete the attached Student Application form and the appropriate signatures must be included. Completed and signed applications can be returned to your high school guidance office. A transcript of grades will be requested.

Additional applications may be obtained from each high school's guidance office or by calling the Student Services Department at LCTI at 610-799-1340. or visit www.lcti.org, Offices, Departments, Student Services, Admissions Information to print a copy of the application form.

Placement Procedures:

LCTI staff members and high school counselors evaluate all applications based on all supplied information. If the selected program has space available, students will be notified of acceptance and placement.

Every effort is made to honor all requests and preferences. On occasion when a program's popularity causes full enrollment, the student and high school guidance office will be notified of any openings in the program(s) as they become available.

Tuition and Costs:

Lehigh Career & Technical Institute is supported by the school districts of Lehigh County. There are no tuition costs for students, however, some career programs require students to purchase safety equipment, tools or uniforms. In these instances, the students, their parents and guardians may be responsible for the cost.

Discrimination Policy:

Lehigh Career & Technical Institute does not discriminate on the basis of sex, handicap, national origin or race in its programs or employment as required by Title IX, Section 504 and Title VI. Inquiries about this policy should be directed to the Lehigh Career & Technical Institute Compliance Officer at 610-799-1357. The information contained in this book is subject to change. Contact Student Services for more information.

Open House:

Learn more about Lehigh Career & Technical Institute by visiting our facility. Every fall LCTI hosts its annual Open House for parents, prospective students and the general public. Personal invitations are sent to all Lehigh County students in grades 6 - 8. Call Student Services for more information at 610-799-2300.

How do I apply to Lehigh Career & Technical Institute?

- 1. Complete the attached application.***
- 2. Complete the student information.***
- 3. Complete the parent information.***
- 4. Parent and student signatures are required to process the application.***
- 5. Select six labs, number them 1 through 6 by level of interest.***
- 6. Select either the Academic Center, full day option for 10th - 12th grades only,***
OR
Half-day Program, 9th - 12th grades
- 7. Remember to have your high school guidance counselor complete and sign the back of the application.***
- 8. If you have questions please contact your high school guidance counselor.***
