Independent Auditor's Report on Compliance with Requirements that could have a Direct and Material Effect on each Major Program and on Internal Control over Compliance in accordance with OMB Circular A-133	107 - 108
Schedule of Findings and Questioned Costs	109 - 110

INTRODUCTORY SECTION

GORMAN & ASSOCIATES, P.C.

Members of American Institute of Certified Public Accountants Pennsylvania Institute of Certified Public Accountants Florida Institute of Certified Public Accountants

Certified Public Accountants

Members of the Board East Penn School District 800 Pine Street Emmaus, PA 18049

We have performed the Single Audit of the East Penn School District for the fiscal year ended June 30, 2012, and have enclosed the Single Audit reporting package.

The Single Audit was done to fulfill the requirements of OMB Circular A-133, which entailed:

An audit of the basic financial statements, and our opinion thereon;

A review of compliance and on internal control over financial reporting based on an audit of the financial statements performed in accordance with Governmental Auditing Standards, and our report thereon;

An examination of the Schedule of Expenditures of Federal Awards, and our report thereon; and,

An opinion on compliance with requirements applicable to each major program and a review of internal control over compliance in accordance with OMB Circular A-133, and our report thereon.

As part of our report, we have enclosed our management letter.

Respectfully submitted,

Jonne : Resocutor P.C.

CERTIFIED PUBLIC ACCOUNTANTS

Members of American Institute of Certified Public Accountants Pennsylvania Institute of Certified Public Accountants Florida Institute of Certified Public Accountants

Board of School Directors Dr. Thomas Seidenberger, Superintendent East Penn School District 800 Pine Street Emmaus, PA 18049

We have audited the financial statements of the governmental activities, business-type activities each major fund, and the aggregate remaining fund information of the East Penn School District for the year ended June 30, 2012, and have issued our report thereon dated December 12, 2012.

As stated in our engagement letter, our responsibility, as described by professional standards, is to express opinions about whether your financial statements are fairly presented, in all material respects, in conformity with the U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities, including having compensating controls in place to ensure our preparation of your financial statements and note disclosures are not materially misstated.

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matter on June 14, 2012.

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the East Penn School District are described in the notes to the financial statements. No new accounting policies were adopted during this past year and the existing policies were properly applied. We did not discover any transactions entered into by the District that lacked authoritative guidance or consensus. In addition, there are no significant transactions affecting the financial statements that have been recognized incorrectly in the wrong year.

Accounting estimates, which are part of the significant accounting policies, are an integral part of the financial statements and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events may differ significantly from those expected. The most sensitive estimates affecting the financial statements was depreciation taken on capital assets based upon the estimated useful life of each asset and calculated on the straight-line basis of depreciation and the actuary's report on Other Post Employment Benefits. We have evaluated the factors and assumptions used to develop these estimates and have determined the estimates to be reasonable in relation to the financial statements taken as a whole.

We wish to inform you that the disclosures in your financial statements are neutral, consistent, and clear. From time to time, certain disclosures are more sensitive than others due to their significance to financial statement users. The most sensitive disclosures involve capital assets and long-term debt.

We have requested certain representations from management that are included in the management representation letter provided to us on December 12, 2012. We advise the governing body to request this letter from management for their review. In conjunctions with their representation, we wish to inform you we did not encounter any significant difficulties in dealing with management and had no disagreements with your management. To our knowledge, management did not find a need to converse with any other independent accountant on any related accounting or auditing issue.

1825 Franklin Street Northampton, Pennsylvania 18067 - 1573 tele} 610/ 262/ 1280 fax) 610/ 262/ 1756 www.gormanandassociates.org In addition, the representation letter provided to us, by management, confirmed there were no uncorrected misstatements. Management has recorded all of our adjusting journal entries, and has agreed to the conversion entries necessary to convert governmental funds and proprietary funds to governmental activities and business-type activities, respectively.

In accordance with auditing standards, generally accepted in the United States of America, we have acquired a sufficient understanding of the District and its environment, including its internal control, to assess the risk of material misstatements of the financial statements whether due to error or fraud, and to design the nature, timing, and extent of further audit procedures that were necessary to express an opinion on the 2011-12 basic financial statements.

Our consideration of the District's internal control components was not designed for the purpose of making detailed recommendations and would not necessarily disclose all significant deficiencies within the components. Our audit procedures have been appropriately adjusted to compensate for any observed significant deficiencies. The following three paragraphs define the three different types of deficiencies that can occur:

A control deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis.

As the primary purpose of our audit is to form an opinion on the basic financial statements, you will appreciate that reliance must be placed on adequate methods of internal control as your principal safeguard against errors and fraud which audit procedures may not disclose. The objective of internal control over financial reporting is to provide reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use and that financial records are reliable for preparing financial statements in accordance with generally accepted accounting principles and for maintaining the accountability for assets. The concept of reasonable assurance recognizes that the cost of internal control should not exceed the related benefits; to operationalize this concept, management is required to formulate estimates and judgments of the cost/benefit ratios of alternative controls.

There are inherent limitations that should be recognized in considering the potential effectiveness of internal control over financial reporting. Errors can result from misunderstanding of instructions, mistakes of judgment, carelessness, fatigue, and other personnel factors. Control procedures whose effectiveness depends upon the segregation of duties can be circumvented by collusion or by management. What's more, any projection of internal control evaluations to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions or due to the deterioration of the degree of compliance with control procedures.

As an adjunct to our audit, we remained alert throughout for opportunities to enhance internal controls and operating efficiency. These matters were discussed with management as the audit progressed and have subsequently been reviewed in detail to formulate practical recommendations. We wish to thank your staff for their courtesies and cooperation, which facilitated the efficient performance of audit procedures. The remainder of this letter will explain any internal control deficiencies discovered during the audit, other auditor recommendations, and other information pertinent to the District.

A control deficiency is determined to be considered a material weakness or significant deficiency based upon the magnitude of the problem as it pertains to a particular opinion unit. In other words, what is considered a significant deficiency in one fund may only be a control deficiency in another fund of greater size.

The following section in this governance/management letter is separated by categories based on importance, with any material weaknesses or significant deficiencies listed in the beginning:

CONTROL DEFICIENCIES

Athletic Fund

During our testing of game receipts from athletic events, we discovered a discrepancy between the Game Report Summary for Boys Basketball and what was actually deposited into the bank account for season passes. The report stipulated that \$1,120 of season passes were sold, but only \$520 was deposited in the bank. During this process, we discovered the athletic director is responsible for both the collection of the money and handing out the season passes. Subsequent to this discovery, we were informed that the athletic office discovered a check from the Booster Club for season passes of \$640, dated in December 2011, but never deposited. It was our understanding the Booster Club was going to re-submit their check to the Athletic Director.

We would like to suggest segregating the Athletic Director's responsibilities to collect the monies for season passes, but submitting a list of who should receive those passes and having the business office send these season passes to those organizations and individuals on the list. The list should also tie to the bank deposit made.

RECOMMENDATIONS

Activity Fund

During our review of the Activity Fund, we discovered money received by the Eyer Middle School was not being deposited into the bank account in a timely manner. There were checks received dated March 28 to 31, 2012 for musical tickets, that were not deposited until July 23, 2012. In another matter, receipts pertaining to T-shirt sales were never deposited and discovered in a desk drawer. Finally, we discovered money deposited into the bank account on July 20, 2012, well beyond the closing of school for the Builder's Club. We could not find any supporting documentation to determine where this money was coming from.

In the future, we suggest management at Eyer Middle School ensure that all receipts are timely deposited with proper documentation to support the purpose for the receipts.

OTHER INFORMATION

We would be remiss if we didn't keep the management and the Board of School Directors informed of changes in accounting principles that will affect the School District next year and future years. The Government Accounting Standards Board (GASB) has issued Statement Nos. 62, 63, 64, 65, 66, 67, and 68 that will come into effect in years to come. The statements that could affect the School District next year and future years are as follows:

GASB Statement No. 62

This statement incorporates other accounting principles established by the American Institute of Certified Public Accountants, known as APBs and ARBs, along with FASB accounting standards that apply to governments. This statement goes into effect next year; however there should be no current effect for the school district pertaining to this statement, except disclosure note changes.

GASB Statement No. 63

This statement goes into effect next year and institutes new classifications to be shown on the Statement of Net Assets, which has also changed to – Statement of Net Position. The new classifications are called: Deferred Inflow of Resources and Deferred Outflow of Resources.

Deferred Outflow of Resources is a consumption of net assets by the government that is applicable to a future reporting period. An example would be Prepaid Expenses that was previously classified as an asset. Deferred Inflow of Resources is an acquisition of net assets by the government that is applicable to a future reporting period. An example would be deferred revenue, whose title will no longer be used.

As a result of these new elements to the statement of financial position, the net position of the entire government at year end will equal total assets, plus total deferred outflows of resources, minus total liabilities and total deferred inflows of resources.

GASB Statement No. 65

This is a companion standard associated with Statement 63. It provides information on what items previously shown as assets, will be reclassified as deferred outflow of resources. And it reflects certain items previously classified as liabilities to deferred inflow of resources.

GASB Statement No. 68

This statement and its component statement no. 67 will have a massive impact on all governments' entitywide financial statements. It will affect every government in the Commonwealth of PA and every other government located in all 50 states, including state governments.

It will require all governments to report the entire amount of the unfunded actuarial liability for any pension plans associated with each respective government onto their government-wide financial statements that are used by bond rating agencies to establish your debt ratings. Presently, governments only report approximately one-thirtieth of this liability on their financial statements assuming they have a stand-alone pension plan.

Those governments, like this School District, that don't report any pension obligation because they and you belong to a pension trust (PSERS), will soon have to report your proportionate share of the pension trust's unfunded actuarial pension liability. Your proportionate share of this significant liability will be based upon the percentage of your contributions into the plan compared to the total contributions submitted by all participating governments in the pension trust.

This standard will have a devastating effect for larger governments, whom are already in dire straits as a result of the poor economy. This standard becomes effective for your 2014-2015 fiscal year.

This letter is required by our standards and has been combined with, what we previously referred to as the management letter. The intent of this letter is to communicate with those charged with governance on matters pertaining to the audit and includes information that we believe can help you correct or improve operating efficiency, under the limitations of staff availability, within the School District.

Respectively submitted,

Horna : lessouto, P.C.

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, the businesstype activities, each major fund, and the aggregate remaining fund information of the East Penn School District as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards, generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made, by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the East Penn School District as of June 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof, and the budgetary comparison of the General Fund for the year then ended in conformity with accounting principles, generally accepted in the United States of America.

In accordance with Government Auditing Standards we have also issued our report dated December 12, 2012, on our consideration of the East Penn School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis, on pages 10 to 21, and the Schedule of Funding Progress on page 80 are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

1825 Franklin Street Northampton, Pennsylvania 18067 - 1573 tele} 610/ 262/ 1280 fax} 610/ 262/ 1756 www.gormanandassociates.org

East Penn School District

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the East Penn School District's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards, as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and the combining and individual fund financial statements and schedules, listed in the table of contents, are presented for the purpose of additional analysis and are not a required part of the financial statements of the East Penn School District. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Respectfully submitted,

Horman : Resocuto, P.C.

December 12, 2012

EAST PENN SCHOOL DISTRICT Emmaus, PA

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) Required Supplementary Information (RSI) (UNAUDITED) For the Year Ended June 30, 2012

The discussion and analysis of East Penn School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2012. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the financial statements and notes to enhance their understanding of the District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the new reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

2011-2012 was the first budget year to have a budget to budget decrease in total expenditures. Salaries for all employees paid from the general fund were budgeted with a zero increase based on all of the bargaining unit groups accepting pay freezes. Twelve teaching positions, an administrative position, and six instructional/staff assistant positions were also eliminated in the budget through attrition.

However, two additional unbudgeted special education teachers were hired due to enrollment. The number of special education students increased from 721 in March of 2011 to 734 in March of 2012. Seven Generations Charter School, which opened in September of 2009 within the district's boundaries, added a grade level and we had approximately 11 more students attend there than in the previous school year. The state also eliminated the up to 30% reimbursement that districts could receive for payments to charter schools.

Budgeted tax revenues reflected the continuing local and national slump in the housing market and the economy. The real estate tax rate increased 1.83% over the previous year, which exceeded the 1.4% legal limit that we were allowed to go up without requesting any exceptions or referendums based on Act 1, but is significantly less than the 4.79% that the Department of Education approved us for based on referendum exceptions submitted for special education and retirement contribution increases that exceeded the index. The 5-year average real estate tax rate increase was 3.3% without subtracting the homestead/farmstead reduction. We continued the senior citizen property tax rebate program. We had eliminated the per capita tax for the 2002-2003 school year and have not reinstated it since then. Actual real estate tax collected was 100.6% of budgeted real estate tax. Interim real estate tax collected was only 32.1% of budget and less than half of what was collected in the previous fiscal year. Real estate transfer tax collected was 87.0% of budget. Actual earned income tax collected was 115.0% of budget and delinquent earned income tax was 102.6% of budget. As a result of Act 32, starting in January of 2012, Berkheimer was selected by the county-wide tax collection committee to collect all current earned income taxes for every school district and municipality in Lehigh County. However, we were still receiving collections from the other municipalities and Keystone through June of 2012 for earnings prior to January of 2012. Delinquent real estate tax collected was 112.4% of budget. Earnings on investments were only 66.5% of the budgeted amount because we did not lower our budgeted interest income enough to reflect interest rates on allowable investments that maintained unexpected lows. For the third of four years, we received a donation from Rodale toward the artificial track.

We completed Plancon J filing for earlier construction projects and received final reimbursement percentages on those bond issues as well as a one-time retroactive unbudgeted adjustment of \$1,250,294.31 in our state rental subsidy reimbursement.

Total revenue and other financing sources received in the general fund was 102.3% of original budgeted revenue and other financing sources.

We refinanced some bond issues at lower interest rates, but did not transfer the savings to our capital reserve fund as we have often done in the past to be used for future capital improvements. The only amount transferred there was the \$100,000 received from Rodale towards the track construction. The Series of 2012 refunded the Series of 2006A saving \$157,615.90 in 2011-12 and significant amounts in the next several years through 2017-18 with minor changes in the years beyond that and an overall savings of \$1,340,021.81, which is net of the state reimbursement on debt service expenditures. The savings were reflected in lower debt service costs paid in 2011-12 and a smoothing of debt service expenditures through 2017-18, after which there is a large drop in the debt service payment schedule.

General fund salaries and benefits spent were 98.3% of their original budget. There were some positions not filled until near the end of the fiscal year and some administrative positions filled at lower salaries. Intermediate Unit instructional costs were only 88.4% of their budget, and a decrease from the amount paid in the previous fiscal year, which is very unusual and based on the number and type of students that they educate for us. Charter School expenditures were 98.7% of their original budget, but the increase from the previous fiscal year was \$232,202 or 8.4% due mainly to the addition of another grade at Seven Generations Charter School in Emmaus. The Other Purchased Prof./Tech. Services area includes the cost of our own cyber alternative program to try to keep cyber charter school costs down. Costs for Approved Private Schools/Private Residential Rehabilitative Institutions were only 81.1% of their original budget, but an increase of \$149,076 or 37.6% over the previous year expenditure. The costs for Other Schools were 424.1% of their original budget and 141.4% more than what we spent in the previous fiscal year. These categories of special instructional expenses that we are required to pay to other entities keep growing rapidly due to court placements and types and quantities of special education students. Fuel and utilities were only 73.3% of their budget due to implementation of some significant energy cost saving measures and very mild weather. This is a difficult area to estimate based on usage related to unpredictable weather. Debt service expenditures were 91.1% of their original budget due to savings from refinancing and low interest on our variable rate notes. Our Miscellaneous category was 182.3% of what was originally budgeted and \$201,483 or 168.3% higher than what was spent there last year, but \$219,150 of the amount spent was for Refund of Prior Year Receipts, which was mainly paid due to retroactive tax assessment appeal decisions. Actual total expenditures excluding transfers and budgetary reserve were 96.5% of original budgeted expenditures.

Total revenue and other financing sources for the fiscal year exceeded total expenditures by \$3,233,724 in the General Fund.

USING THE ANNUAL FINANCIAL REPORT

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand East Penn School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The first two statements are government-wide financial statements - the Statement of Net Assets and the Statement of Activities. These provide both long-term and short-term information about the District's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the Districts operations in more detail than the government-wide statements. The governmental funds statements tell how general District services were financed in the short term as well as what remains for future spending. Proprietary fund statements offer short- and long-term financial information about the activities that the District operates like a business. For this District this is our Food Service Fund. Fiduciary fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Figure A-1 shows how the required parts of the Financial Section are arranged and relate to one another:

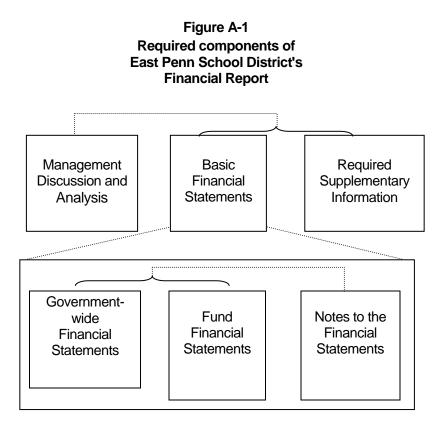

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District they cover and the types of information they contain. The remainder of this overview section of management discussion and analysis explains the structure and contents of each of the statements.

Figure A-2 Major Features of East Penn School District's Government-wide and Fund Financial Statements

OVERVIEW OF FINANCIAL STATEMENTS

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Districts net assets and how they have changed. Net assets, the difference between the District's assets and liabilities, are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net assets are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, you need to consider additional factors, such as the increasing property tax base, outlook for future growth, strength of financial policies and planning, and student performance and achievement.

The government-wide financial statements of the District are divided into two categories:

- Governmental activities All of the District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- Business type activities -The District operates a food service operation and charges fees to staff, students and visitors to help it cover the costs of the food service operation.

Fund Financial Statements

The District's fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required by state law and by bond requirements.

Governmental funds - Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary funds - These funds are used to account for the District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the District charges customers for services it provides - whether to outside customers or to other units in the District - these services are generally reported in proprietary funds. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.

Fiduciary funds - The District is the trustee, or fiduciary, for some scholarship funds. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets. We exclude these activities from the District's other financial statement because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's total net assets were \$57,109,211 at June 30, 2012. This is an increase in net assets of \$9,468,058 from the net assets for the previous fiscal year.

Table A-1 Fiscal Year ended June 30, 2012 Net Assets (In Millions)

Most of the District's net assets are invested in capital assets (buildings, land, and equipment). The remaining unrestricted net assets are combined of designated and undesignated amounts. The designated balances are amounts set-aside to fund future purchases or capital projects as planned by the district.

The results of this year's operations as a whole are reported in the Statement of Activities. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The two largest general revenues are the Basic Education Subsidy provided by the State of Pennsylvania, and the local taxes assessed to community taxpayers.

Table A-2 takes the information from that Statement and rearranges it slightly, so that you can see our total revenues for the year.

Table A-2Fiscal Year ended June 30, 2012Changes in Net Assets (In Thousands)

The tables below present the expenses of both the Governmental Activities and the Business-type Activities of the District.

Table A-3 shows the District's eight largest functions - instructional programs, instructional student support, administrative, operation and maintenance of plant, pupil transportation, student activities, community services, food service as well as each program's net cost (total cost less revenues generated by the activities). This table also shows the net costs offset by the other unrestricted grants, subsidies, and contributions to show the remaining financial needs supported by local taxes and other miscellaneous revenues.

The Statement of Revenues, Expenses and Changes in Fund Net Assets for this proprietary fund will provide further detail on the actual results of operations.

THE DISTRICT FUNDS

At June 30, 2012, the District governmental funds reported a combined fund balance of \$18,429,477, an increase of \$2,935,491, from the previous year.

General fund revenues exceeded expenditures (not including transfers) by \$3,333.724 but a \$100,000 transfer to the capital reserve fund caused the General Fund to show a final \$3,233,724 increase in fund balance.

With the implementation of GASB Statement #54, Capital Reserve Fund balances are now reported as part of the Capital Projects balances. The overall Capital Projects Fund balances have decreased by \$304,307.

The District utilizes the Capital Reserve Fund to actively prepare for unexpected and proposed capital projects each year. In order to fund these projects without the need for additional borrowing issues, the district has established this fund and makes transfers from available fund balance of the General Fund to this fund. Capital outlay projects and support costs of \$133,934 were covered by the Capital Reserve Fund this year, while \$100,000 was received from the General Fund, so the Capital Reserve Fund's fund balance increased by \$27,799.

The Capital Projects Fund had a negative change in its fund balance since ongoing construction project expenditures amounted to \$292,628. The Capital Project portion of fund balance decreased by \$276,508.

General Fund Budget

During the fiscal year, the Board of School Directors (The Board) authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. All adjustments are again confirmed at the time the annual audit is accepted, which is after the end of the fiscal year, which is not prohibited by state law. A statement showing the District's original and final budget amounts compared with amounts actually paid and received is provided in the Annual Financial Report.

Local revenues were higher than budgetary figures due to conservative budgeting based on the recession and assessment appeals starting to come in. Current, delinquent real estate and earned income tax revenues exceeded budgetary figures which offset lower interim real estate, transfer tax revenues and interest income. Total local revenue was \$1,199,363 higher than budgeted. State revenue was \$1,228,644 higher than budgetary figures. This was primarily due to unbudgeted one time state retroactive reimbursement percentage adjustments of rental subsidy rates for previous construction projects. Special education, transportation and basic education subsidy reimbursements exceeded budget projections while retirement and social security reimbursements were less than budgeted. Federal Revenue was \$109,128 higher than budgeted.

Salaries and benefits, utility costs and debt service, were lower than originally budgeted, driving the total expenditures (excluding fund transfers and budgetary reserve) to be \$3,777,706 lower than budgeted. See the Financial Highlights section near the beginning of this MD&A for further details.

Further, there were no significant, unexpected expenditures during the year, so the budgeted reserve amount was not needed. While the District does prepare a budget with a reserve each year for unexpected emergencies, this expenditure is dependent upon actual experience during the fiscal year. Board policy is to include a budgetary reserve account appropriation equal to 5% of the annual budget appropriations. The Board is using this method of budgeting to control tax increases while also protecting the integrity of the fund balance.

Transfers between specific categories of expenditures/financing uses occur during the year. The most significant transfers occur due to use of grant funds, whose amounts are not known at the time that the budget must be approved.

CAPITAL ASSET AND DEBT ADMINISTRATION

CAPITAL ASSETS

At June 30, 2012, the District had \$166,759,707 invested in a broad range of capital assets, including land, buildings, furniture and equipment. This amount represents a net decrease (including additions, deletions and depreciation) of \$3,876,787, or 2.27% from last year.

DEBT ADMINISTRATION

As of July 1, 2011, the District had total outstanding debt of \$136,990,000. During the year, the District issued \$9,500,000 in additional debt, but retired and repaid \$20,210,000 resulting in ending outstanding debt as of June 30, 2012, of \$126,280,000.

Table A-6Outstanding Debt

Other obligations include accrued vacation pay and sick leave for specific employees of the District. More detailed information about our long-term liabilities is included in the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's most recent general obligation bond rating of Aa2 (with an underlying rating of Aa2) was issued by Moody's Investor Service on July 5, 2012. The Aa2 rating reflects their opinion of the "District's

- Historically strong financial operations, resulting in satisfactory reserve levels
- A large suburban Allentown area community with wealth levels that exceed state and national medians
- An average debt profile that is expected to remain affordable as future capital and borrowing plans are minimal"

They stated that in their opinion, "The district continues to demonstrate its trend of solid operating flexibility through prudent budgetary practices" and "a history of structurally balanced operations", but notes that "Going forward, management's ability to maintain satisfactory financial flexibility by addressing rising expenditures and limited revenue growth will be a key rating driver".

The revenue budget for the 2012-2013 year is \$3,468,613 higher than the original budget of 2011-2012. This represents a 3.1% increase in budgeted revenues and includes a 0.60-mil or 1.3% real estate tax rate increase. With the passing of Act 1, the District was required to pass a preliminary budget in January and get approval for increasing taxes above an allowed index or pass a resolution stating that we would not exceed the index. For the 2012-2013 budget, this index was 1.7%, and the District approved a preliminary budget and applied for exceptions from PDE to exceed the index for the 2012-2013 school year. We were granted exceptions for special education (\$60,887) and retirement contributions (\$872,811) totaling \$933,698, but used \$0 when we adopted the final budget. These exceptions based on tax data in the preliminary budget, would have allowed us to implement a real estate tax rate of 47.49 mils, which would have been a 2.91% real estate tax rate increase, but the actual final budget had a real estate tax rate of 46.75 mils, or a 1.3% rate increase. The expenditure budget for the 2012-2013 year is \$4,676,634 higher than the original budget for 2011-2012, or a 3.9% increase. The budgetary reserve accounts for \$5,952,195 of the total expenditure budget.

The comparison of original budgeted revenue and expenditure categories is as follows:

The Accompanying Notes are an integral part of these financial statements.

(1) Internal balances represent the amount owed to or from the two types of activities within the Primary Government. Since internal balances do not represent assets or liabilities of the total Primary Government, their balances are eliminated in the "total" column (GASB Statement No. 34, para. 58).

East Penn School District Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets As of June 30, 2012

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS		\$ 18,429,477
Amounts reported for governmental activities in the statement of net assets are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$216,540,591 and the accumulated depreciation is \$49,780,884.		166,759,707
Additional receivables established that do not meet the availability criteria reflected in the fund financial statements. This amount represents the difference between the prior year receivables and the current year receivables established under the accrual basis of accounting.		100,000
Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds.		1,357,012
The governmental funds follow the purchase method of inventory; therefore no inventory is reflected on the balance sheet. However, the statement of net assets uses the consumption method of inventory.		119,385
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of: Bonds payable Accrued interest on the bonds Compensated absences Other Retirement Benefits Net Pension Obligation Net OPEB Obligation	<pre>\$ (124,038,138)</pre>	(130,054,910)
TOTAL NET ASSETS - GOVERNMENTAL ACTIVITIES		<u>\$ 56,710,671</u>

East Penn School District Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes In Fund Balances to the Statement of Activities For the Year Ended June 30, 2012

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ 2,935,491
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. Depreciation expense \$ 4,272,449 less - capital outlays _ 490,737	(3,781,712)
In the statement of activities, only the gain on the sale of the capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the cost of fixed assets sold.	(55,076)
Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred revenues increased by this amount this year.	(109,461)
Repayment of bond and lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.	10,805,000
In the statement of activities, certain operating expensescompensated absences (vacations) and special termination benefits (early retirement) - are measured by the amounts earned during the year. In the governmental funds; however, expenditures for these items are measured by the amount of financial resources used. This amount represents the	
difference between the amount earned versus the amount used.	 199,707
SUB-TOTAL IN CHANGES BETWEEN BASIS OF ACCOUNTING	9,993,949

East Penn School District Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes In Fund Balances to the Statement of Activities For the Year Ended June 30, 2012

SUB-TOTAL IN CHANGES BETWEEN BASIS OF ACCOUNTING (cont'd)	\$	9,993,949
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due. This would include accumulated interest accreted on capital appreciation bonds. The additional interest accrued in the statement of activities over the amount due is shown here.		(527,345)
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of assets. Refunding bond issues becomes a use of current financial resources in governmental funds, but refundings represent payments of long-term debt in the statement of net assets. This figure represents the difference between bond proceeds and refunding payments made to paying agents.		(6,075)
In the statement of activities, certain operating revenues are recognized when earned versus the revenues using the modified accrual basis of accounting in the fund statements that are recognized when the funds are available. As such, the amount shown here represents the difference between earned revenues and revenues that are earned, but not available.		(107,196)
The governmental funds use the purchase method of inventory, where all items purchased are charged to expenditures. However, the statement of activities is reflected on the consumption method of recording inventory type items; therefore, this adjustment reflects the inventory difference.		17,660

Note 1 - Description of the School District and Reporting Entity

School District

The East Penn School District is located in eastern Pennsylvania in the southern portion of Lehigh County, approximately seven miles to the south and west of Allentown, the county seat of Lehigh County. Encompassing 45.4 square miles in Lehigh County, the School District is comprised of Alburtis, Emmaus, and Macungie Boroughs, and Lower Macungie and Upper Milford Townships.

Prior to 1966 and pursuant to law, the former School Districts of the Boroughs of Emmaus, Alburtis, and Macungie, and the Townships of Lower Macungie and Upper Milford, Lehigh County, formed the East Penn Union School District. Pursuant to Act 299 of the 1963 Pennsylvania Legislature requiring a consolidation of school districts, effective July 1, 1966, the East Penn Union School District formed the East Penn School District. The reorganized School District has assumed all rights and obligations of the predecessor school district.

The East Penn School District is a unit established, organized and empowered by the Commonwealth of Pennsylvania for the express purpose of carrying out, on the local level, the Commonwealth's obligation to public education, as established by the constitution of the Commonwealth and by the School Law Code of the same (Article II; Act 150, July 8, 1968).

As specified under the School Law Code of the Commonwealth of Pennsylvania, this and all other school districts of the state "shall be and hereby are vested as, bodies corporate, with all necessary powers to carry out the provisions of this act." (Article II, Section 211).

Board of School Directors

The public school system of the Commonwealth shall be administered by a board of school directors, to be elected or appointed, as hereinafter provided. At each election of school directors, each qualified voter shall be entitled to cast one vote for each school director to be elected.

The East Penn School District is governed by a board of nine School Directors who are residents of the School District and who are elected every two years, on a staggered basis, for a four-year term.

The Board of School Directors has the power and duty to establish, equip, furnish, and maintain a sufficient number of elementary, secondary, and other schools necessary to educate every person, residing in such district, between the ages of six and twenty-one years, who may attend.

In order to establish, enlarge, equip, furnish, operate, and maintain any schools herein provided, or to pay any school indebtedness which the school district is required to pay, or to pay any indebtedness that may at any time hereafter be created by the school district, the board of school directors are vested with all the necessary authority and power annually to levy and collect the necessary taxes required and granted by the legislature, in addition to the annual State appropriation, and are vested with all necessary power and authority to comply with and carry out any or all of the provisions of the Public School Code of 1949.

Administration

The Superintendent of Schools shall be the executive officer of the Board of School Directors and, in that capacity shall administer the School District in conformity with Board policies and the School Laws of Pennsylvania. The Superintendent shall be directly responsible to, and therefore appointed by, the

Board of School Directors. The Superintendent shall be responsible for the overall administration, supervision, and operation of the School District.

The Director of Operations, recommended by the Superintendent and appointed by the Board of School Directors, shall supervise and coordinate all business and operational aspects of the School District. In this capacity, he or she shall be responsible to insure that all work accomplished by him/her, or by persons under his/her supervision, is in the best interests of the East Penn School District. The Director of Operations is directly responsible to the Superintendent.

Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For East Penn School District, this includes general operations, food service, and student related activities of the School District.

East Penn School District is a municipal Corporation governed by an elected nine-member board. As required by generally accepted accounting principles, these financial statements are to present East Penn School District (the primary government) and organizations for which the primary government is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are financially dependent on the School District in that the School District approved the budget, the issuance of debt, or the levying of taxes. The East Penn School District does not have any component units.

Joint Ventures

Lehigh Career and Technical Institute

The School District is a participating member of the Lehigh Career and Technical Institute (LCTI). The LCTI is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the LCTI's annual operating budget. Each participating district pays a pro-rata share of the LCTI's operating costs based on the number of students attending the LCTI for each District. The District's share of the LCTI operating costs for 2011-12 was \$2,018,699.

On dissolution of the Lehigh Career and Technical Institute, the net assets of LCTI will be shared on a pro-rata basis of each participating district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board. However, the District does not have an equity interest in LCTI as defined by GASB Statement No. 14, except a residual interest in the net assets upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the LCTI can be obtained from the LCTI's administrative office at 2300 Main Street, Schnecksville, PA.

Lehigh-Carbon Community College

The District is a participating member of the Lehigh-Carbon Community College (LCCC). The LCCC is run by a Board of Trustees elected by the participating member districts' boards of directors. No participating district appoints a majority of the Board of Trustees. A vote of two-thirds of all member districts shall be required for approval of the LCCC's annual operating budget. The amount of the annual operating costs of the LCCC shall be apportioned among the member districts on the basis of the number of full-time equivalent students enrolled in LCCC and residing in the respective geographical areas of each of the member districts. The District's share of LCCC's operating costs for 2011-12 was \$946,135.

On dissolution of the Lehigh-Carbon Community College, the net assets of LCCC will be shared on a pro-rata basis of each member district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board. However, the District does not have an equity interest in LCCC as defined by GASB Statement No. 14, except a residual interest in the net assets upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the LCCC can be obtained from the LCCC's administrative office at 2300 Main Street, Schnecksville, PA.

Jointly Governed Organizations

Carbon-Lehigh Intermediate Unit

The School District is a participating member of the Carbon-Lehigh Intermediate Unit (CLIU). The CLIU is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the CLIU's annual operating budget. The CLIU is a self-sustaining organization that provides services for fees to participating districts. As such, the District has no on-going financial interest or financial responsibility in the CLIU. The CLIU contracts with participating districts to supply special education services, computer services, and acts as a conduit for certain federal programs.

Note 2 - Summary of significant accounting policies

The financial statements of the District have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. On June 15, 1987, the GASB issued a codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its business-type activities and to its proprietary funds, provided they do not conflict with or contradict GASB pronouncements. The more significant of these accounting policies are described below and, where appropriate, subsequent pronouncements will be referenced.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net assets, a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The statement of net assets presents the financial condition of the governmental and business-type activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for one business-type activity of the School District. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

B. Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's **major** governmental funds:

General Fund

The General Fund should be used to account for and report all financial resources not accounted for and reported in another fund.

Special Revenue Fund

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term proceeds of specific revenue sources establish that one or more specific restricted or committed revenues should be the foundation for a special revenue fund. The restricted or committed proceeds of specific revenue sources should be expected to continue to comprise a substantial portion of the inflows reported in the fund. Other resources also may be reported in the fund if those resources are restricted, committed, or assigned to the specified purpose of the fund.

Under this new definition, the District does not have any special revenue funds.

Capital Project Funds

Capital Project Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital project funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

The District has the following Capital Project Funds:

a) b) 2010 Construction Fund

This fund received the proceeds of \$4,000,000 from the General Obligation Bonds – Series A of 2010. The proceeds will be used for capital improvements to facilities owned and operated by the school district, and to pay costs of issuance.

c) Capital Reserve Fund

This fund was created in accordance with Section 1432 of the Municipal Code. The Municipal Code restricts how the resources are spent within this fund.

Proprietary Funds Proprietary funds focus on the determination of changes in net assets, financial position and cash flows and are classified as enterprise funds.

Enterprise Funds Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The School District's major enterprise fund is:

Food Service Fund - This fund accounts for the financial transactions related to the food service operations of the School District.

Fiduciary Funds Fiduciary funds reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments, and are therefore not available to support the School District's own programs. The School District has two private purpose trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

C. Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net assets.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all enterprise funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of revenues, expenses, and changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in total net assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its enterprise activities.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Government funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

E. Budgetary Process

An operating budget is adopted prior to the beginning of each year for the General Fund on the modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required.

In accordance with Act 1 of 2006, the Board shall annually, but not later than the first business meeting of January, decide the budget option to be used for the following fiscal year. The Board shall approve either the Accelerated Budget Process Option or the Board Resolution Option.

Accelerated Budget Process Option

Under this option, a preliminary budget must be prepared 150 days prior to the primary election. Under this Option, the preliminary budget must be available for public inspection at least 110 days prior to the primary election. The Board shall give public notice of its intent to adopt the preliminary budget at least 10 days prior to the adoption. The adoption must occur at least 90 days prior to the primary election.

If the preliminary budget exceeds the increase authorized by the Index, an application for an exception may be filed with either a Court of Common Pleas with jurisdiction or PDE and made available for public inspection. The Board may opt to forego applying for an exception by submitting a referendum question seeking voter approval for a tax increase, in accordance with Act 1.

The final budget shall include any necessary changes from the adopted preliminary budget. Any reduction required as the result of the failure of referendum shall be clearly stated. The final budget shall be made available for public inspection at least 20 days prior to final adoption. The Board shall annually adopt the final budget by a majority vote of all members of the Board prior to June 30.

Board Resolution Option

Under the Board Resolution Option, the Board shall adopt a resolution that it will not raise the rate of any tax for the following fiscal year by more than the Index. Such resolution shall be adopted no later than 110 days prior to the primary election. At least 30 days prior to adoption of the final budget the Board shall prepare a proposed budget. The proposed budget shall be available for public inspection at least 20 days prior to adoption of the budget. The Board shall give public notice of its intent to adopt at least 10 days prior to adoption of the proposed budget. The Board shall annually adopt the final budget by a majority vote of all members of the Board by June 30.

Legal budgetary control is maintained at the sub-function/major object level. The PA School Code allows the School Board to make budgetary transfers between major function and major object codes only within the last nine months of the fiscal year, unless there is a two-thirds majority of the Board approving the transfer. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the PDE 2028 when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all 2011-12 budget transfers.

F. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

G. Assets, Liabilities, and Net Assets

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Proprietary Fund type considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents.

Investments

In accordance with GASB Statement 31, investments are stated at fair value, except:

- a) Non-participating interest earning investment contracts are recorded at amortized cost;
- b) Money market investments and participating interest earning investment contracts that mature within one year of acquisition are recorded at amortized cost; and,
- c) Investments held in 2a7-like pools (Pennsylvania Local Government Investment Trust and Pennsylvania Treasurer's Invest Program), are recorded at the pool's share price.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Property Tax Levy

Property taxes, which were levied during the fiscal year ended June 30, 2012, are recognized as revenue in the fund financial statements when received by the District during the fiscal year and also estimated to be received by the District within sixty (60) days after the fiscal year ended.

Property taxes that were levied during the current fiscal year, which are not estimated to be received within sixty (60) days after the fiscal year-end, are recorded as receivable and deferred revenue in the fund financial statements.

In the government-wide financial statements, all property taxes levied during the fiscal year are recognized as revenue, net of estimated uncollectible amount.

Inventories

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used. As of June 30, 2012, the inventory shown in the governmental activities column of the government-wide statement of net assets is \$119,385 and \$76,790 is shown as inventory in the business-type activities column of the government-wide statement of net assets.

Inventory type items in governmental funds utilize the purchase method, that is, they are charged to expenditures when purchased. There was no physical inventory taken as of June 30, 2012; therefore, there is no offsetting nonspendable fund balance in the General Fund.

Inventory type items in Proprietary Funds use the consumption method, in which items are purchased for inventory and charged to expenses when used. The only Proprietary Fund of the District is the Food Service Fund. Inventory within this fund consists of supplies purchases, food and donated commodities, which are valued at U.S.D.A.'s approximate costs. Inventories on hand at June 30, 2012, consist of:

Donated Commodities	\$	48,845
Supplies		8,453
Food		19,492
TOTAL	<u>\$</u>	76,790

Prepaid Expenses

In both the government-wide and fund financial statements, prepaid expenses are recorded as assets in the specific governmental fund in which future benefits will be derived.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets, but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of two thousand-five hundred (\$2,500) dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets utilized by the enterprise funds is also capitalized.

All reported capital assets, except land, certain land improvements, and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
10 -50 years	10 - 50 years
5 - 20 years	5 -20 years
8 years	8 years
	Activities Estimated Lives 10 -50 years 5 - 20 years

Compensated Absences

The School District reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences". Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. In enterprise funds, the entire amount of compensated absences is reported as a fund liability.

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net assets. Bond premiums and discounts, bond issuance costs, and deferred amounts on refundings are deferred and amortized over the life of the bonds using modification of the effective interest method. Bonds payable are reported net of the applicable bond premium or discount and any deferred amount on refundings. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts and premiums on debt issuances are reported as other financing uses and other financing sources, respectively. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as support service expenditures.

Reclassification

Certain amounts have been reclassified to conform to the June 30, 2012, presentation of governmentwide financial statements on the accrual basis of accounting versus the governmental fund financial statements reported on the modified accrual basis of accounting.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by a higher governmental authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Fund Balance Categories

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Below are the potential categories of fund balance the government may use with their definitions, the actual categories used is explained in Note 7 to the financial statements:

Nonspendable Fund Balance

This category includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance

Fund balance should be reported as restricted when constraints placed on the use of resources are externally imposed by creditors, grantors, contributors, or other government laws or regulations, or the constraint is imposed by enabling legislation or constitutional provisions.

Committed Fund Balance

This category pertains to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. The committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action.

This government's governing body is the School Board and the formal action taken to commit resources is done by resolution.

Assigned Fund Balance

This category includes all remaining amounts that are reported in governmental funds, except the general fund, that are not classified in one of the above-mentioned categories. In the general fund, this category represents the District's intent to use resources for a specific purpose, which does not require formal action by the governing body. The District's policy dictates the Superintendent and Business manager are responsible to make these assignments.

Unassigned Fund Balance

This category of fund balance represents the residual classification for the general fund after segregating resources used in the other categories listed above. Unassigned fund balance will only be shown in other governmental funds if those governmental funds have a negative net fund balance.

The District's policy on fund balance does not dictate which category of unrestricted fund balance is spent first, when resources are available to be spent in various categories. As such, committed amounts will be reduced first, followed by assigned amounts, and then unassigned amounts. The District's policy also does not dictate whether restricted (nonspendable or restricted) or unrestricted (committed, assigned, and unassigned) is spent first when resources are available in both categories.

As such, in these circumstances, restricted will be assumed to have been spent first followed by the unrestricted categories.

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of fixed assets, or from grants or outside contributions of resources restricted to capital acquisition and construction. The proprietary funds received \$12,570 in capital contributions during this fiscal year.

Note 3 - Reconciliation of government-wide and fund financial statements

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets.

The governmental fund balance sheet includes reconciliation between "fund balance -total governmental funds" and "net assets - governmental activities" as reported in the government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds". The details of this \$130,054,910 differences are:

Bonds payable Less: Deferred charge on refunding (to be amortized as	\$	126,280,000 (1,922,541)
interest expense) Less: Deferred charge for issuance costs (to be amortized		(1,081,881)
over life of debt) Less: Issuance discount (to be amortized as interest expense) Add: Issuance premium (to be amortized as a contra to		(124,852)
interest expense)		887,412
Accrued interest payable Other Retirement Benefits		440,900 2,460,065
Net Pension Obligation Net OPEB Obligation		296,566 1,316,593
Compensated absences		1,502,648
Net adjustment to reduce "fund balance - total governmental funds"	•	
to arrive at "net assets - governmental activities"	\$	130,054,910

B. Explanation of Differences between Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Statement of Activities

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. Differences between the governmental funds statement of revenues, expenditures, and changes in fund balance and the statement of activities fall into one of three broad categories. The amounts shown in the columns on the following page represent:

a) Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds

report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities. The long-term expenses reported below recognize the change in vested employee benefits.

- b) Capital related differences include (1) the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and (2) the difference between recording an expenditure for the purchase of capital items in the governmental fund statements, and capitalization and recording of depreciation expense on those items as recorded in the statement of activities.
- c) Long-term debt transaction differences occur because long-term debt proceeds are recorded as revenue and both interest and principal payments are recorded as expenditures in the governmental fund statements. In the statement of activities, long-term debt proceeds are recorded as a liability; principal payments are recorded as a reduction of liabilities.

Note 4 - Stewardship, Compliance, and Accountability

A. Compliance with finance related legal and contractual provisions

The District has no material violations of finance related legal and contractual provisions.

B. Deficit fund balance or net assets of individual funds

No individual fund contains a deficit fund balance or net assets at June 30, 2012.

C. Excess of expenditures over appropriations in individual funds

No individual fund, which had a legally adopted budget, had an excess of expenditures over appropriations.

D. Budgetary compliance

The District's only legally adopted budget is for the General Fund. All budgetary transfers were made within the last nine months of the fiscal year. The District cancels all purchase orders open at year-end; therefore, it does not have any outstanding encumbrances at June 30, 2012. In addition, the District includes a portion of the prior year's fund balance represented by unappropriated liquid assets remaining in the fund as budgeted revenue in the succeeding year. The results of operations on a GAAP basis do not recognize the fund balance allocation as revenue as it represents prior period's excess of revenues over expenditures.

Note 5 - Detailed notes on all funds and account groups

CASH

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a policy for custodial credit risk. As of June 30, 2012, \$7,444,522, of the District's bank balance of \$7,944,522, and restricted cash of \$5,000 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 5,000
Collateralized with securities held by the pledging financial institution	-
Uninsured and collateral held by the pledging bank's trust department not in	
the District's name	 7,444,522
TOTAL	\$ 7,449,522

TOTAL CASH PER FINANCIAL STATEMENTS	\$ 24,038,589

Investments

Permitted investments for Pennsylvania School Districts are defined in the Public School Code of 1949 as:

- 1. United States Treasury Bills;
- 2. Short-term obligations of the United States Government or its agencies or instrumentalities;
- 3. Deposits in savings accounts or time deposits or share accounts of institutions insured by the F.D.I.C; and,
- 4. Obligations of the United States of America or any of its agencies or instrumentalities, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities or any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities.

As of June 30, 2012, the District had the following investments:

Investment	Maturities	Fair Value
PLGIT	:	\$ 7,034,060
PLGIT-ARM		1,536,268
First Star Banking		6,715,201
First Niagra Bank		1,883,217
US Bank		6,074
Certificates of Depost		-
TOTAL		\$ 17,174,820

Interest Rate Risk

The District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The District has no investment policy that would limit its investment choices to certain credit ratings. As of June 30, 2012, the District's investment in PLGIT was rated AAA by Standard & Poor's.

Concentration of Credit Risk

The District places no limit on the amount the District may invest in any one issuer.

Reconciliation to Financial Statements

Total Investments Per Financial Statements	<u>\$</u>	-
Deposits in Money Market Funds Considered Cash Equivalents		(8,604,492)
Less: Deposits in Investment Pool Considered Cash Equivalents		(8,570,328)
Total Investments Above	\$	17,174,820

Property Taxes

Property taxes are levied on July 1, on the assessed value listed, as of that date, for all taxable real property located in the District. Assessed values are established by the County Board of Assessments. All taxable real property was assessed at \$1,738,279,450. The tax rate for the year was \$4.615 per \$100 of assessed valuation or 46.15 mills. In accordance with Act 1 of 2006, the District received \$1,794,357 in property tax reduction funds for the 2011-12 fiscal year.

The property tax calendar is:

July 1	-	Full year tax assessed for current year.
July 1 - August 31	-	Discount period during which a 2% discount is allowed.
September 1 - October 31	-	Face amount of tax is due
November 1 - January 15	-	A 10% penalty is added to all payments.
January 15 -	-	All unpaid taxes become delinquent and are turned over to the County Tax Claim Bureau for Collection.

The School District, in accordance with GAAP, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes was determined by the administration. A portion of the net amount estimated to be collectible, which was measurable and available within 60 days, was recognized as revenue and the balance deferred in the financial statements.

Receivables

Receivables, as of year end, for the government's individual major funds and non-major and fiduciary funds, in the aggregate, including the applicable allowances for uncollectible accounts, are:

	G	ENERAL FUND	PRO	ITAL JECT NDS	S	FOOD Ervice Fund	MA	on- Jor NDS	 ICIARY INDS	TOTAL

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds are:

The governmental disposed of \$288,404 in capital assets during the year with \$233,328 in accumulated depreciation, which leaves a loss on disposition of \$55,076. The business-type activities did not dispose of any capital assets during the year.

Commitments

Encumbrances

Any encumbrances outstanding at year-end do not represent GAAP expenditures or liabilities but represent budgetary accounting controls. The General Fund Budget is maintained on the modified accrual basis of accounting, except that budgetary basis expenditures include any encumbrances issued for goods or services not received at year-end and not terminated.

The actual results of operations are presented in accordance with GAAP and the District's accounting policies do not recognize encumbrances as expenditures until the period in which the goods or services are actually received and a liability is incurred. If budgetary encumbrances exist at year-end, they are included in the fund financial statements to reflect actual revenues and expenditures on a budgetary basis consistent with the District's legally adopted budget.

Long-Term Construction Commitments

The District has the following construction commitments in the Capital Project Funds:

General Obligation Notes - Series of 1998

On December 30, 1998, the District issued \$10,215,000 of General Obligation Notes - Series of 1998. The purpose of this issue was to provide funds needed to refund the General Obligation Notes - Series A of 1997, capitalized interest, and paying the costs of issuance. A sinking fund has been established with the paying agent in accordance with the Local Governmental Unit Debt Act. The Notes mature from February 1, 2001, to February 1, 2020. The Notes shall bear interest at a variable rate based on the issuer's weekly rate, not to exceed 25% per annum. Interest shall be paid on the third day prior to the end of each month. The outstanding principal and interest requirements at June 30, 2012, are based on the interest rate of 0.13% at year end:

FISCAL YEAR	PRINCIPAL			INTEREST

Lease Rental Debt

The Lehigh Career and Technical Institute (LCTI), with authority of the nine participating school districts, have agreed to borrow up to \$53,715,000 to improve the Institute's facilities. The participating districts, such as East Penn School District, will be required to pay their proportionate shares of the incurred debt under the Articles of Agreement in subsequent years as "Capital Costs" under Section 4.2 of the Articles.

Specifically, Lehigh Career and Technical Institute issued \$32,000,000 of revenue bonds - Series of 2003 dated March 15, 2003, and \$21,715,000 of revenue bonds - Series of 2001 dated September 15, 2001, through the State Public School Building Authority (SPSBA). The bonds are special limited obligations of the SPSBA. During the 2005-06 fiscal year, these issues have been refunded with new issues.

The LCTI financing translates into an ongoing obligation of the participating districts for credit purposes; however, for purposes of the Local Governmental Unit Debt Act, this borrowing is not considered general obligation debt of the school districts; therefore, the future obligations of debt service are not recorded as a liability on East Penn's financial statements.

Combined Long-Term Debt

The combined general long-term debt obligations for subsequent years, except for compensated absences and retirement benefits are:

Compensated Absences

Sick-Pay

Under the District's various bargaining agreements and plans, professional and eligible support personnel accumulate unused sick days from year to year based on their classification. These accumulated sick days are non-vesting during the employee's tenure. Only administrators employed prior to 7-1-04 who have opted to retain this benefit are eligible for payment. Upon retirement, these employees except for administrators are eligible for remuneration for unused sick days under the following bargaining agreements:

1.	East Penn Education Association Members	- \$25 per day	
2.	Teamsters Union Members	- \$22 per day	
3.	Food Crafters Association Members	- \$20 per day	
4.	Secretarial & Aide Members	- \$20 per day	
5.	Administrative Plan Members	- \$25 per day	

The District maintains records of each employee's accumulated sick days that are vested with employees who are eligible to retire, and for those under the administrative plan. In accordance with GASB Statement No. 16, \$40,087, including FICA tax (net of reimbursement), has been recorded in the Food Service (Enterprise) Fund for sick leave termination benefits earned by Cafeteria employees at June 30, 2012. This amount is also included as a long-term liability in the business-type activity column of the government-wide statement of net assets. The amount recorded in the General Fund for governmental employees, which will use currently available financial resources, is \$56,975, including FICA tax (net of reimbursement). This amount is reflected as a current liability in the governmental activities column of the government-wide statement of net assets. The remaining sick leave termination benefit of \$891,027, including FICA tax (net of reimbursement), is recorded as a long-term liability in the governmental activities column of the government-wide statement of net assets.

Vacation Leave

Unused vacation leave is paid upon an employee's termination. The District maintains records of each employee's accumulated vacation days. In accordance with GASB Statement No. 16, the portion of vacation pay earned at June 30, 2012, that will use currently available financial resources is \$143,348, including fica tax and retirement contributions (net of reimbursement), which has been recorded in the General Fund. This amount is also shown as a current liability in the governmental activities column of the government-wide statement of net assets. The Enterprise (Food Service) Fund has recorded \$3,143, including fica tax and retirement contributions (net of reimbursement), which is also reflected as a long-term liability in the business-type activity column of the government-wide statement of net assets. The remaining vacation pay earned at June 30, 2012, of \$611,621, including FICA tax and retirement contributions (net of reimbursement), is recorded as a long-term liability in the governmental activities column of the government-wide statement of net assets.

Defined benefit pension plans

Plan Description

Name of plan: The Public School Employees' Retirement System (the System).

Type of Plan: Governmental cost sharing multiple-employer defined benefit plan.

Benefits: Retirement and disability legislatively mandated ad hoc cost-of-living adjustments, healthcare insurance premium assistance to qualifying annuitants.

Authority: The Public School Employees' Retirement Code (Act No. 96 of October 2, 1975, as amended) (24 PA C.S. 8101-8535).

Annual Financial Report: The System issues a comprehensive annual financial report that includes financial statements and required supplementary information for the plan. A copy of the report may be obtained by writing to Diane J. Wert, Office of Financial Management, Public School Employees' Retirement System, P. O. Box 125, Harrisburg, PA 17108-0125. The report is also available in the publications section of the PSERS website at www.psers.state.pa.us.

Funding Policy

Authority: The contribution policy is established in the Public School Employees' Retirement Code and requires contributions by active members, employers, and the Commonwealth.

Contribution Rates

Member Contributions: Active members, who joined the System prior to July 22, 1983, contributed at 5.25 percent (Membership Class TC) or at 6.50 percent (Membership Class TD) of the member's qualifying compensation. Members who joined the System on or after July 22, 1983 and who were active or inactive as of July 1, 2001, contribute at 5.4 percent (Membership Class TC) or at 7.50 percent (Membership Class TD) of the member's qualifying compensation. Members who joined the System after June 30, 2001, contribute at 7.50 percent (automatic Membership Class TD). For all new hires and for members who elected Class TD membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011 who elect Class T-F membership contributes at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Contributions required of employers are based upon an actuarial valuation. For fiscal year ended June 30, 2012, the rate of employer contribution was 8.65 percent of covered payroll. The 8.65 percent rate is comprised of a pension contribution rate of 8.00 percent for pension benefits and 0.65 for healthcare insurance premium assistance.

The employer's current year covered payroll was \$50,443,392 and total payroll was \$52,001,070.

The total employee and employer contributions for this current year were \$3,764,259 and \$4,383,145, respectively.

Other Employee Benefits

Special Termination Benefits

The East Penn School District's Board of School Directors has established an early retirement incentive program (ERIP) for those employees who meet certain qualifications. All professional employees will select, in writing, one of two financial options.

Option 1

Upon meeting the requirements explained later, the District shall pay to the employee a total payment equal to his/her final base salary, at the time of application for ERIP, multiplied by the percentage appearing in the chart below. Such payment will be made during the first calendar year of ERIP at a time stipulated, in writing, by the retiree. The employee may opt to receive these monies in either one or two installments.

AGE OF PERSON ON JULY 1 OF ERIP YEAR	PERCENTAGE
54	50%
55	50%
56	40%
57	35%
58	30%
59	25%
60	20%

Option 2

Upon receipt of a letter of request and letter of intent to retire, the Board will approve the applicant's request for a sabbatical leave, if the employee is eligible by law, and waives the return-to-work provision. Under this option, the employee would not begin receiving PSERS benefits until the conclusion of the year's sabbatical leave.

The plan is on a voluntary basis. To be eligible to receive this retirement incentive, the employee must meet all of the following qualifications:

The employee must be an active (not on leave) member of the instructional or administrative staff at the time of request.

The employee must choose to begin the ERIP program on July 1, and must be at least the age of 54 or not older than 60 on the preceding June 30.

The employee must have a minimum of fifteen (15) consecutive years of service in the East Penn School District prior to the commencement of ERIP.

The employee must qualify for retirement under provisions of the Public School Employees Retirement System (PSERS).

A letter of resignation, application to PSERS for benefits, and an application for ERIP must be received in the Superintendent's office on or before May 1, of the school year preceding the July 1, start date of ERIP.

In accordance with GASB Statement No. 47, an employer that provides voluntary termination benefits shall recognize a liability and an expense when the employees accept the offer and the amount can be reasonably estimated. The amount recognized shall include any lump-sum payments and the present value of any expected future payments. The District records a liability when an employee accepts the offer. As of June 30, 2012, there were no eligible persons that accepted the offer that were not paid or recorded as a liability.

Under the provisions of Board Policy 450, the East Penn School District will pay, for those employees electing the Early Retirement Incentive Program explained in the preceding note, the premium for the retiring employee in an early retiree's hospitalization/medical plan. Such coverage will continue until the employee becomes eligible for government sponsored hospitalization/medical insurance or reaches age 65. Such insurance plan will be substantially equivalent to the plan offered to regular employees, but will have a mandatory reduction in major medical benefits. In accordance with GASB Statement No. 47, the portion of the ERIP liability at June 30, 2012, that will use currently available financial resources is \$88,707, which has been recorded in the General Fund, while \$719,357 is shown as a current liability in the governmental activities column of the government-wide statement of net assets. The remaining ERIP liability at June 30, 2012, of \$1,829,415 is recorded as a long-term liability in the government-wide statement of net assets.

Retirement Incentive Benefits

In an effort to retain administrative employees the East Penn School District adopted Board Policy Number 350.1. This policy establishes a Retention Incentive Program applicable to administrative employees. To qualify for this program the employee must be a member of the administrative staff at the time of request, be an employee of the District for at least five years and qualify for retirement under the provisions of the Public School Retirement System. Those employees meeting the qualifications and proper request procedures will receive health insurance benefits at the District's expense until the employee becomes eligible for government sponsored hospitalization or reaches age 65. In addition, the retiring employee is entitled to a payment determined as a percentage of his/her final base salary as:

	% of Base Salary for
Age	Each Yr of Svc at that Age
49 and below	1%
50 to 54	2%
55 and Over	3%

Employees hired prior to 7-1-04 were given the option to elect to participate in this plan or remain eligible for the early retirement incentive plan discussed previously. Employees electing to participate in this plan waive their right to reimbursement of unused accumulated sick leave days.

In accordance with Government Accounting Standards Board Statement No. 27, this benefit is considered a pension plan.

Funding Policy and Annual Pension Cost

This benefit is determined by contractual agreement between the Board of School Directors and each eligible class of employees. The District's annual pension cost is calculated based on the annual required contribution of the employer (ARC), amount actuarially determined in accordance with the parameters of GASB Statement 27. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost, each year, and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The District's annual pension cost for the current year and the related information is as follows:

Contribution Rates:		
	R	etirement
	li	ncentive
	I	Pension
		Benefit
	Α	ctuarially
	De	etermined
Interest Rate		4.5%
Plan Members		38
Annual Required Contribution	\$	101,309
Interest on net Pension obligation		8,933
Adjustment to annual required contribution		(12,187)
Annual Pension Cost		98,055
Contributions made		
Increase in net Pension obligation		98,055
Net Pension obligation - beginning of year		198,511
Net Pension obligation - end of year	\$	296,566

The District's annual pension cost, the percentage of annual Pension cost contributed to the plan and the net Pension obligation for the four fiscal years ending June 30th, for the benefits were as follows:

Year <u>ended</u>	Annual Pension <u>Cost</u>	Percentage of Pension Cost <u>Contributed</u>	Net Pension Obligation				
6/30/2012	\$ 98,055	0.0%	\$	296,566			
6/30/2011	98,882	49.0%		198,511			
6/30/2010	102,209	56.8%		148,063			
6/30/2009	103,912	0.0%		103,912			

Funded Status and Funding Process. The funded status of the benefits as of June 30, 2012, were as follows:

	Inc	Retirement entive Benefit mental Activity
Actuarial accrued liability (a) Actuarial value of plan assets (b)	\$	454,389 -
Unfunded actuarial accrued liability (a) - (b)	\$	454,389
Funded Ratio (b) / (a) Covered payroll	\$	0.0% 3,747,744
Unfunded actuarial accrued liability (funding excess) as a percentage of covered payroll.		12.1%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the benefits and the annual required contributions of the employer are subject to continual revision, actual results are compared to past expectations, and new estimates are made about the future. The required schedule of funding progress presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of plan Net Assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits are based on substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the district and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

Actuarial Valuation Date	Retirement Incentive <u>Benefit</u> 7/1/2010
Actuarial Cost Method	Entry Age Normal
Amortization Method	Level dollar method over a 30 year period
Remaining amortization period	27 years
Asset Valuation Method Actuarial Assumptions:	pay as you go basis
Investment rate of return Projected salary increases Healthcare inflation rate	4.5% 4.25% to 7.25%
2012	N/A
2013	N/A
2014	N/A
2015 2016 +	N/A N/A

Other Post Employment Benefits

Plan Description: East Penn School District has one single-employer defined benefit plan.

 In accordance with the PA School Code of 1949, as amended, medical coverage is provided to eligible retirees and spouses with the retiree paying the full active premium rate for coverage until age 65. This benefit has an implicit rate subsidy based upon GASB Statement No. 45, since the retiree pays the premium at the insurance carrier's global rate charged to the School District versus an age-adjusted rate, as defined in the GASB Statement.

	Summary of Plan Provisions									
Group	Eligibility	Coverage And Premium Sharing	Duration							
<u>I. ADMINISTRATORS</u>	Retention Incentive Program – (RIP) – must complete 5 years with the district and retire through PSERS. Other – must attain age 55 and retire through PSERS.	 Coverage: Medical, Prescription Drug, and Dental. Premium Sharing: If the member retires under the ERIP or the RIP, the district will pay for the amount of the Classic Blue retiree medical and prescription drug plan for the member only. Any difference in premiums must be paid for by the individual. Spouses may elect coverage by paying the full premiums. Member and spouse may also elect dental coverage by paying the full premiums. If the member does not meet the requirements for the district subsidy but requirements are met to retire through PSERS, the member and spouse may continue coverage by paying the full premiums. Upon death of active employee or retiree, the spouse may continue coverage until Medicare Age. Dependents: Spouses included. 	 Member –Benefits cease upon Medicare age. Spouse - Benefits cease upon Medicare age. 							
<u>II. TEACHERS</u>	Early Retirement Incentive Program (ERIP) – must attain age 54, but not exceed age 60, and complete 15 consecutive years with the district and retire through PSERS. Other – must attain age 55 and retire through PSERS.	 Coverage: Medical, Prescription Drug, and Dental. Premium Sharing: If the member retires under the ERIP, the district will pay for the amount of the Classic Blue retiree medical and prescription drug plan for the member only. Any difference in premiums must be paid for by the individual. Spouses may elect coverage by paying the full premiums. Member and spouse may also elect dental coverage by paying the full premiums. If the member does not meet the requirements for the district subsidy but requirements are met to retire through PSERS, the member and spouse may continue coverage by paying the full premiums. Upon the death of a retiree, the spouse may continue coverage until Medicare age. Dependents: Family included. 	Same as I							

East Penn School District Notes To Basic Financial Statements Fiscal Year Ended June 30, 2012

Summary of Plan Provisions							
Group	Eligibility	Coverage And Premium Sharing	Duration				
III. SUPPORT STAFF	Must attain age 55 and retire through PSERS.	 Coverage: Medical, Prescription Drug and Dental. Premium Share: Retiree pays 100% of the cost. Upon death of active employee or retiree, the spouse may continue coverage until Medicare Age. Dependents: Spouse Included. 	• Same as I.				

Notes: Act 10/43 Benefit: All employees are eligible for this benefit upon retirement with 30 years of PSERS service or upon superannuation retirement (age 60 with 30 years of service, age 62 with 1 year of service, or 35 years of service regardless of age). Retired employees are allowed to continue coverage for themselves and their dependents in the employer's group health plan until the retired employee reaches Medicare age. In order to obtain coverage, retired employees must provide payment equal to the premium determined for the purposes of COBRA.

Cash Payments: Cash payments are not GASB 45 liabilities

- Financial Incentives under the ERIP are valued under GASB 47.
- Financial Incentives under the RIP are valued under GASB 27.
- * The first schedule of this valuation contains supplemental calculations under GASB 27. The benefit provision is as follows:
 - Administrators who qualify for PSERS retirement and have worked for the district are entitled to a one-time payment equal to the individual's base salary times a percentage which is the sum of A) 1% times services prior to age 49, plus B) 2% times service for ages between 50-54, plus C) 3% times service for ages greater than 55.

Funding Policy and Annual OPEB Cost. This benefit is state mandated via the School Code statue. The District's annual other post-employment benefit (OPEB) cost (expense) for the plan is calculated based on the annual required contribution of the employer (ARC), an the amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost, each year, and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The District's annual OPEB cost for the current year and the related information is as follows:

Contribution Rates:	
	OPEB Benefit
	Actuarially
	Determined
Interest Rate	4.5%
Plan Members	877
Annual Required Contribution	\$ 1,600,598
Interest on net OPEB obligation	47,788

2013	6.0%
2014	5.5%
2015	5.0%
2016 +	5.0%

Note 6 - Risk Management

The District is subject to risk of loss from employee acts, property damage, personal injury auto accidents, theft, etc. The District covers those risks through the purchase of commercial insurance. The District's Workmen's compensation policy is a retrospectively rated policy; the final total premium is based on the actual payroll for the policy year and is determined by the insurance company. Any settlements received by the District or its employees did not exceed insurance coverage in any of the last three years.

Note 7 – Fund Balance Allocations

Restricted Fund Balance

The two Capital Project Funds have restrictions on the use of the resources at year end. The Capital Reserve Fund's \$1,866,228 fund balance at year end is restricted because of enabling legislation under the Municipal Code in Pennsylvania. Section 1432 of this Code restricts the use of resources for limited purposes.

In addition, the debt covenant on the District's Bond issues restricts the proceeds shown in the 2010 Construction Fund for the purposes outlined in the bond resolution. As such, the \$1,513,505, in fund balance at year end within this fund is considered restricted.

The General Fund has \$4,177 in restricted fund balance as a result of local grants received.

Committed Fund Balance

The Board of School Directors has committed \$1,250,294 for future retirement rate increases from PSERS.

Assigned Fund Balance

The General Fund has \$10,021,093, assigned for appropriations in the 2012-13 budget.

Note 8 - Net Asset Restrictions

The portion of net assets for governmental activities, shown on the government-wide statement of net assets invested in capital assets, net of related debt is \$44,235,074. The business-type activities column reflects \$302,056 invested in capital assets with no related debt. In addition, \$1,866,228 of net assets in the governmental activities column has been restricted for future capital projects.

Note 9 – Contingencies

Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and a condition specified in the grant agreements, and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund, or other applicable funds. However, in the opinion of management any such disallowed claims will not have a material adverse effect on the overall financial position of the School District as of June 30, 2012.

Litigation

In accordance with management, there are no legal matters that could materially affect the financial position of the District as of June 30, 2012.

Note 10 – Subsequent Events

General Obligation Bonds – Series of 2012

On August 17, 2012, the District issued \$9,900,000 of General Obligation Bonds – Series – of 2012. The proceeds will be used: (1) To refund the School District's outstanding GOB Series AA of 2004; (2) To refund a portion of the District's GOB Series of 2007; and; (3) To pay costs of issuing the bonds. In accordance with the Local Governmental Unit Debt Act, a sinking fund has been established with the paying agent. The bonds mature from November 15, 2013 to November 15, 2028. Interest rates range from 2.00% to 2.75% with total interest indebtedness of \$2,185,527.67.

The future debt service requirements are:

FISCAL YEAR	PRINCIPAL	INTEREST
2012-13	\$-	\$ 162,453
2013-14	5,000	218,170
2014-15	545,000	212,670

Note 1 - Significant Accounting Policies

The accompanying Schedule of Expenditures of Federal Awards is presented on the modified accrual basis of accounting for all federal awards charged to governmental funds and on the accrual basis of accounting for all federal awards charged to proprietary funds, as contemplated by generally accepted accounting principles.

Note 2- Organization and Scope

The District recognized 1.9 % of its total general fund revenue in federal awards, and 26.3% of its total enterprise fund revenue.

Note 3 - Program Disclosure – Footnotes

- The federal awards, passed through the Carbon-Lehigh I. U. and Montgomery County I. U., under the U.S. Department of Education heading, is part of a consortium of participating school districts. In accordance with directions from the Commonwealth of Pennsylvania, these awards are reported on the basic financial statements as local source revenue.
- 2. The Federal Grants were passed through the following entities in the totals below:

Passed through	<u>To</u>	tal Awards	<u>Ex</u>	<u>l otal</u> penditures
PA Department of Education	\$	1,255,328	\$	1,309,022
Carbon-Lehigh I.U.		3,617,669		1,154,608
PA Department of Public Welfare		N/A		6,280
PA Department of Agriculture		N/A		132,515
Totals	\$	4,872,997	\$	2,602,425

- 3. The Medical Access grant passed through the PA Department of Education is reflected as federal source revenue on the basic financial statements; however, pursuant to instructions from the Commonwealth of PA, it is not reported as revenue on the Schedule of Federal Awards.
- 4. The District received non-monetary assistance from the U.S. Department of Agriculture of \$148,134 in the form of commodities. These commodities are valued at U.S.D.A.'s approximate costs. During the 2011-12 fiscal year, the District used \$132,515 in commodities and established a year-end inventory of \$48,845 at June 30, 2012.
- 5. The amount recognized as revenue in the Schedule of Expenditures of Federal Awards, under the U.S. Department of Agriculture heading, represents the commodities used versus the commodities received, which are recognized as revenue in the basic financial statements.

The programs reporting this footnote are grants received using funds from the American Recovery and Reinvestment Act.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparison statement for the General Fund of East Penn School District as of and for the year ended June 30, 2012, which collectively comprise East Penn School District's basic financial statements and have issued our report thereon dated December 12, 2012. We conducted our audit in accordance with auditing standards, generally accepted in the United States of America, and the standards applicable to financial audits in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of East Penn School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered East Penn School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion, on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of East Penn School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of East Penn School District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of East Penn School District's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

East Penn School District

Compliance and Other Matters

As part of obtaining reasonable assurance about whether East Penn School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to the governing body of East Penn School District in a separate letter dated December 12, 2012.

This report is intended solely for the information and use of management, the Board of School Directors, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

Respectfully submitted,

Hornan : lessouto, P.C.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Compliance

We have audited East Penn School District's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of East Penn's School District's major federal programs for the year ended June 30, 2012. East Penn School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of East Penn School District's management. Our responsibility is to express an opinion on East Penn School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program, occurred. An audit includes examining, on a test basis, evidence about East Penn School District's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on East Penn School District's compliance with those requirements.

In our opinion, East Penn School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal programs for the year ended June 30, 2012.

Internal Control over Compliance

Management of East Penn School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered East Penn School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of East Penn School District's internal control over compliance.

1825 Franklin Street Northampton, Pennsylvania 18067 - 1573 tele) 610/ 262/ 1280 fax} 610/ 262/ 1756 www.gormanandassociates.org

East Penn School District

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of School Directors, others within the entity, federal awarding agencies, and pass-through entities, and is not intended to be, and should not be used by anyone other than these specified parties.

Respectfully submitted,

Horman i Resocutor P.C.
