Members of the Board East Penn School District 800 Pine Street Emmaus, PA 18049

We have performed the Single Audit of the East Penn School District for the fiscal year ended June 30, 2021, and have enclosed the Single Audit reporting package.

The Single Audit was done to fulfill the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, which entailed:

- 1. An audit of the basic financial statements, and our opinion thereon;
- 2. A review of compliance and of internal control over financial reporting based on an audit of the financial statements performed in accordance with Governmental Auditing Standards, and our report thereon;
- 3. An examination of the Schedule of Expenditures of Federal Awards and our report thereon; and,
- 4. An opinion on compliance with requirements applicable to each major program, and a review of internal control over compliance in accordance with the Uniformed Guidance, explained above, and our report thereon.

As part of our report, we have enclosed our management letter.

Respectfully submitted,

Horman & Resocutor P.C.

Certified Public Accountants

Members of American Institute of Certified Public Accountants Pennsylvania Institute of Certified Public Accountants Florida Institute of Certified Public Accountants

Board of School Directors Dr. Kristen Campbell, Superintendent East Penn School District 800 Pine Street Emmaus, PA 18049

We have audited the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the East Penn School District for the year ended June 30, 2021, and have issued our report thereon dated November 10, 2021.

As stated in our engagement letter, our responsibility, as described by professional standards, is to express opinions about whether your financial statements are fairly presented, in all material respects, in conformity with the U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities, including having compensating controls in place to ensure our preparation of your financial statements and note disclosures are not materially misstated.

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matter on June 29, 2021.

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the East Penn School District are described in the notes to the financial statements. No new accounting policies were adopted during this past year and the existing policies were properly applied. We did not discover any transactions entered into by the District that lacked authoritative guidance or consensus. In addition, there are no significant transactions affecting the financial statements that have been recognized incorrectly in the wrong year.

Accounting estimates, which are part of the significant accounting policies, are an integral part of the financial statements and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events may differ significantly from those expected. The most sensitive estimates affecting the financial statements was depreciation taken on capital assets based upon the estimated useful life of each asset and calculated on the straight-line basis of depreciation and the actuary's reports on Other Post-Employment Benefits, and the Net Pension Liability. We have evaluated the factors and assumptions used to develop these estimates and have determined the estimates to be reasonable in relation to the financial statements taken as a whole.

We wish to inform you that the disclosures in your financial statements are neutral, consistent, and clear. From time to time, certain disclosures are more sensitive than others due to their significance to financial statement users. The most sensitive disclosures involve capital assets and long-term debt.

We have requested certain representations from management that are included in the management representation letter provided to us on November 11, 2021. We advise the governing body to request this letter from management for their review. In conjunction with their representation, we wish to inform you we did not encounter any significant difficulties in dealing with management and had no disagreements with your management. To our knowledge, management did not find a need to converse with any other independent accountant on any related accounting or auditing issue.

1825 Franklin Street Northampton, Pennsylvania 18067 - 1573 tele} 610/ 262/ 1280 fax} 610/ 262/ 1756 www.gormanandassociates.org In addition, the representation letter provided to us, by management, confirmed there were no uncorrected misstatements. Management has recorded all of our adjusting journal entries, and has agreed to the conversion entries necessary to convert governmental funds and proprietary funds to governmental activities and business-type activities, respectively.

In accordance with auditing standards, generally accepted in the United States of America, we have acquired a sufficient understanding of the District and its environment, including its internal control, to assess the risk of material misstatements of the financial statements whether due to error or fraud, and to design the nature, timing, and extent of further audit procedures that were necessary to express an opinion on the 2020-21 basic financial statements.

Our consideration of the District's internal control components was not designed for the purpose of making detailed recommendations and would not necessarily disclose all significant deficiencies within the components. Our audit procedures have been appropriately adjusted to compensate for any observed significant deficiencies. The following three paragraphs define the three different types of deficiencies that can occur:

A control deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis.

As the primary purpose of our audit is to form an opinion on the basic financial statements, you will appreciate that reliance must be placed on adequate methods of internal control as your principal safeguard against errors and fraud which audit procedures may not disclose. The objective of internal control over financial reporting is to provide reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use and that financial records are reliable for preparing financial statements in accordance with generally accepted accounting principles and for maintaining the accountability for assets. The concept of reasonable assurance recognizes that the cost of internal control should not exceed the related benefits; to operationalize this concept, management is required to formulate estimates and judgments of the cost/benefit ratios of alternative controls.

There are inherent limitations that should be recognized in considering the potential effectiveness of internal control over financial reporting. Errors can result from misunderstanding of instructions, mistakes of judgment, carelessness, fatigue, and other personnel factors. Control procedures whose effectiveness depends upon the segregation of duties can be circumvented by collusion or by management. What's more, any projection of internal control evaluations to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions or due to the deterioration of the degree of compliance with control procedures.

As an adjunct to our audit, we remained alert throughout for opportunities to enhance internal controls and operating efficiency. These matters were discussed with management as the audit progressed and have subsequently been reviewed in detail to formulate practical recommendations. We wish to thank your staff for their courtesies and cooperation, which facilitated the efficient performance of audit procedures. The remainder of this letter will explain any internal control deficiencies discovered during the audit, other auditor recommendations, and other information pertinent to the District.

A control deficiency is determined to be considered a material weakness or significant deficiency based upon the magnitude of the problem as it pertains to a particular opinion unit. In other words, what is considered a significant deficiency in one fund may only be a control deficiency in another fund of greater size.

The following section in this governance/management letter is separated by categories based on importance, with any material weaknesses or significant deficiencies listed in the beginning:

CONTROL DEFICIENCIES

Inventory – Governmental Activities

The client's turnover in the maintenance department led to the failure of recording an up-to-date inventory list for custodial supplies, floor supplies, and paper products. We were therefore unable to audit the inventory balance. This scope limitation, even though unlikely, has the potential to be a significant misstatement in the financial statements as we were unable to test the account balance. The client needs to keep an updated inventory total at year end despite how insignificant the balance normally is.

RECOMMENDATIONS

GASB 84 Implementation

The District was delayed in Implementing GASB 84 until after the fiscal year was over, which required the District to go back through the accounting records and separate those activities in the Activity Fund that would remain as part of the new custodial fund and which activities would be reported in the General Fund. Due to the delay, the Activity Fund was not ready when we began the audit and while we were able to audit the adjustments that were eventually provided, the nature of the delay certainly increased the inherent risk of misstatements occurring in the Activity Fund itself. One factor to consider, however, is the overall activity that occurred during 20-21 was dramatically reduced due to COVID-19. However, it is always our recommendation to implement new accounting standards as soon as reasonably possible and preferably as soon as they go into effect.

OTHER INFORMATION

<u>Leases</u>

The Governmental Accounting Standards Board has issued Statement No. 87 dealing with Operating and Financing Leases. Under current accounting principles, only Financing Leases are recorded on the financial statements as assets and liabilities. Operating leases are shown as rent expense. As such, we have only been interested in capital or financing leases in past years, but the new standard below will require the need to audit all leases.

The new standard defines a lease as a contract that conveys control of the right to use another entity's non-financial asset as specified in the contract for a period of time. As such, all leases will be recorded on the financial statements as either a tangible or intangible asset with a corresponding liability for future present value of lease payments.

The effective date of this new standard was also extended with GASB Statement No. 95 delaying the date of implementation to the 2021-22 fiscal year.

Respectively submitted,

Horman & Cessocieto, P.C.

INDEPENDENT AUDITOR'S REPORT

Board of School Directors East Penn School District 800 Pine Street Emmaus, PA 18049

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the general fund budgetary comparison statement of the East Penn School District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

1825 Franklin Street Northampton, Pennsylvania 18067 - 1573 tele} 610/ 262/ 1280 fax} 610/ 262/ 1756 www.gormanandassociates.org

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the general fund budgetary comparison statement of the East Penn School District, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2-G to the financial statements, the District adopted the provisions of GASB No. 84, *Fiduciary Activities*, GASB Statements No. 90, *Accounting and Financial Reporting for Majority Equity Interest* – an amendment of GASB Statements No. 14 and No. 61 and GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans* – an amendment of GASB Statements No. 14 and No. 84 and a supersession of GASB Statement No. 32, and GASB Statement No. 98, *The Annual Comprehensive Financial Report.* Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 9-18, the Schedules pertaining to the Defined Benefit Pension Plan, the Defined Contribution Pension Plan, the Multiple Employer OPEB Plan, and the Single Employer OPEB Plan on pages 83-91, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the East Penn School District's basic financial statements. The *combining and individual fund statements and schedules, and schedule of expenditures of federal awards, by Title 2 U.S. Code of Federal Regulations Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for federal awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements, schedules, and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for federal awards, are the responsibility of management and were derived from and related to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the

East Penn School District

basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, *the combining and individual fund financial statements, schedules, and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for federal awards, are fairly stated in all material respects in relation to the basic financial statements as a whole.

Supplementary Information – Statistical Tables

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the East Penn School District's basic financial statements. The Statistical Tables on pages 103-104, are presented for additional analysis pertaining to the District's annual submission to the National Repository, known as EMMA (Electronic Municipal Market Access) to satisfy the Securities and Exchange Commission requirements. This supplemental information is not part of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on this information.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 10, 2021, on our consideration of the East Penn School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering East Penn School District's internal control over financial reporting and compliance.

Respectfully submitted,

Harman : Resocutor P.C.

November 10, 2021

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) Required Supplementary Information (RSI) (UNAUDITED) For the Year Ended June 30, 2021

The discussion and analysis of East Penn School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2021. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the financial statements and notes to enhance their understanding of the District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the new reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

* The District-wide total net position increased by \$8,153,879 to a balance of (\$87,860,294).

* The governmental net position has increased by \$9,091,738 to a balance of (\$84,659,030).

- * The business type net position has decreased by \$936,903 to a balance of (\$3,201,264).
- * The District's General Fund Balances have decreased by \$509,169 to a balance of \$17,210,218.

USING THE ANNUAL FINANCIAL REPORT

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand East Penn School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The first two statements are government-wide financial statements - the Statement of Net Position and the Statement of Activities. These provide both long-term and short-term information about the District's overall financial status.

The remaining statements are fund financial statements that focus on individual parts of the Districts operations in more detail than the government-wide statements. The governmental funds statements tell how general District services were financed in the short term as well as what remains for future spending. Proprietary fund statements offer short and long-term financial information about the activities that the District operates like a business. For this District this is our Food Service Fund. Fiduciary fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements.

Figure A-1 shows how the required parts of the Financial Section are arranged and relate to one another:

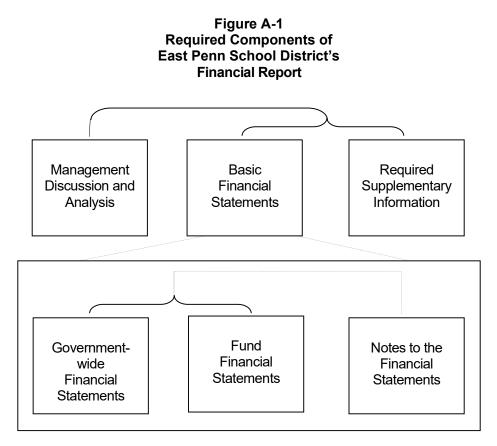

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District they cover and the types of information they contain. The remainder of this overview section of management discussion and analysis explains the structure and contents of each of the statements.

Figure A-2 Major Features of East Penn School District's Government-wide and Fund Financial Statements

OVERVIEW OF FINANCIAL STATEMENTS

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net Position, the difference between the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, you need to consider additional factors, such as the increasing property tax base, outlook for future growth, strength of financial policies and planning, and student performance and achievement.

The government-wide financial statements of the District are divided into two categories:

- Governmental activities All of the District's basic services are included here, such as instruction, administration and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- Business type activities -The District operates a food service operation and charges fees to staff, students and visitors to help it cover the costs of the food service operation.

Fund Financial Statements

The District's fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required by state law and by bond requirements.

Governmental funds - Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary funds - These funds are used to account for the District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the District charges customers for services it provides - whether to outside customers or to other units in the District - these services are generally reported in proprietary funds. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.

Fiduciary funds - The District is the trustee, or fiduciary, for some scholarship funds. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position. We exclude these activities from the District's other financial statement because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's total net position is (\$87,860,294) at June 30, 2021. This reflects an increase in net position of \$8,153,879 from the previous fiscal year.

Table A-1 Net Position Fiscal Year Ended June 30, 2021

Most of the District's net position is invested in capital assets (buildings, land, and equipment) totaling \$106,071,651. The remaining unrestricted net portion is a combination of designated and undesignated amounts. The designated capital projects balance of \$14,775,763 is set aside to fund capital projects as planned by the district. The unrestricted net position reflects a negative balance of (\$208,707,708).

The results of this year's operations as a whole are reported in the Statement of Activities. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The two largest general revenues are the Basic Education Subsidy provided by the State of Pennsylvania, and the local taxes assessed to community taxpayers.

Additional information is provided in the notes to the financial statements.

Table A-2 takes the information from that Statement and rearranges it slightly, so that you can see our total revenues for the year.

The tables below present the expenses of both the Governmental Activities and the Business-type Activities of the District.

Table A-3 shows the District's eight largest functions - instructional programs, instructional student support, administrative, operation and maintenance of plant, pupil transportation, student activities, community services, food service as well as each program's net cost (total cost less revenues generated by the activities). This table also shows the net costs offset by the other unrestricted grants, subsidies, and contributions to show the remaining financial needs supported by local taxes and other miscellaneous revenues.

The Statement of Revenues, Expenses and Changes in Fund Net Position for this proprietary fund will provide further detail on the actual results of operations.

THE DISTRICT FUNDS

At June 30, 2021, the District governmental funds reported a combined fund balance of \$31,985,981, an increase of \$8,839,185 from the previous year.

General fund expenditures and other uses exceeded revenues and other sources by \$612,317. The implementation of GASB Statement #84 – Fiduciary Activities required the reclassification of monies from fiduciary funds to the general fund resulting in a prior period adjustment that increased the general fund balance \$103,148, thereby resulting in an ending total General Fund balance of \$17,210,218.

With the implementation of GASB Statement #54, Capital Reserve Fund balances are reported as part of the Capital Projects balances.

The District utilizes a Capital Reserve Fund to actively prepare for unexpected and proposed capital projects each year. In order to fund projects without the need for additional borrowing issues, the district has established this fund and makes transfers from available fund balance of the General Fund to this fund. Capital outlay projects and support costs of \$1,893,321 were covered by the Capital Reserve Fund, while transfers of \$11,240,000 were received from the General Fund, so the Capital Reserve Fund's fund balance increased by \$9,348,354.

General Fund Budget

During the fiscal year, the Board of School Directors (The Board) authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. All adjustments are again confirmed at the time the annual audit is accepted, which is after the end of the fiscal year. These types of adjustments are not prohibited by state law. The District's original and final budget amounts compared with amounts actually paid and received is provided on the Statement of Revenues' Expenditures and Changes in Fund Balance-Budget and Actual-General Fund.

The General Fund overall operating revenues of \$154,044,404 were \$4,834,241 greater than originally budgeted. Local revenues were \$4,482,711 higher than budgeted due to real estate taxes and other revenues exceeding budgeted levels. State subsidy revenues were \$372,911 lower than budgeted. Higher than budgeted special education, non-resident foster and institutional placement, PlanCon and transportation revenues offset lower than budgeted reimbursements for FICA and retirement. Federal grant revenues were \$727,441 higher than budgeted due to the availability of ESSER and GEER relief funding.

Total expenditures of \$143,388,757 (excluding budgetary reserve) were \$5,181,406 lower than originally budgeted. Charter school costs exceeded original budget projections, which were offset by positive budget variances in a majority of other categories.

Further, the budgeted budgetary reserve amount of \$7,552,500 was not needed, as there were no significant, unexpected expenditures during the year. While the District does prepare a budget with a reserve each year for unexpected emergencies, this expenditure is dependent upon actual experience during the fiscal year.

The inclusion of \$11,240,000 in transfers to other funds, resulted in total expenditures and funding uses of \$154,656,721.

Transfers between specific categories of expenditures/financing uses occur during the year. The most significant transfers occur due to use of grant funds, whose amounts are not known at the time that the budget must be approved.

CAPITAL ASSET AND DEBT ADMINISTRATION

CAPITAL ASSETS

At June 30, 2021, the District had \$137,075,400 invested in a broad range of capital assets, including land, buildings, furniture and equipment. This amount represents a net decrease (including additions, deletions and depreciation) of \$2,692,444, or 1.93% from the previous year.

Table A-6 Outstanding Debt

Other obligations include accrued vacation pay and sick leave for specific employees of the District. More detailed information about long-term liabilities is included in the notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The revenue budget for the 2021-22 year is \$10,587,231 higher than the original budget of 2020 -21, representing a 7.09% increase in budget revenues and includes a 0.5022 mil (2.7% real estate tax increase).

With the passage of Act 1, the District was required to pass a preliminary budget in December and obtain approval for increasing taxes above an allowed index or pass a resolution stating that the index would not be exceeded. The 2021-22 Act 1 index was 3.6% and the District approved a preliminary budget resolution which limited the final tax rate increase to the 3.6% Act 1 index. The 2021-22 final adopted budget reflected a real estate tax rate of 19.1035 mils (2.7% real estate tax increase).

The expenditure budget for the 2021-22 year is \$12,000,156 higher than the original budget for 2020-21, or a 7.63% increase. The budgetary reserve accounts for \$8,426,650 of the total expenditure budget.

The comparison of original budgeted revenue and expenditure categories is as follows:

BUDGETED REVENUES

	2021-22	2020-21
Local	73.6%	74.5%
State	21.9%	24.0%
Federal/Other	4.6%	1.5%

BUDGETED EXPENDITURES

	2021-22	2020-21
Instruction	61.3%	59.9%
Support Services	26.5%	27.6%
Non-Instruction/Community	1.2%	1.3%
Fund Transfers/Debt	11.0%	11.2%

CONTACTING THE DISTRICT FINANCIAL MANAGEMENT

Our financial report is designed to provide our citizens, taxpayers, parents, students, investors and creditors with a general overview of the District's finances and to show the Board's accountability for the money it receives. If you have questions about this report or wish to request additional financial information, please contact Robert E. Saul, Business Administrator at East Penn School District, 800 Pine Street, Emmaus, PA 18049, and (610) 966-8307.

AND FUND BALANCES								

East Penn School District Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position As of June 30, 2021

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS		\$ 31,985,981
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$227,435,103 and the accumulated depreciation is \$90,359,703.		137,075,400
Additional receivables established that do not meet the availability criteria reflected in the fund financial statements. This amount represents the difference between the prior year receivables and the current year receivables established under the accrual basis of accounting.		-
This represents deferred outflows of resources resulting in deferred charges on refunding prior bond issues.		212,878
Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds.		1,731,599
The governmental funds follow the purchase method of inventory; therefore no inventory is reflected on the balance sheet. However, the statement of net position uses the consumption method of inventory.		5,980
This represents the deferred outflows of resources, net of deferred inflows of resources pertaining to the Net Pension/OPEB Liabilities.		29,149,645
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:		
Bonds payable\$ (31,749)Accrued interest on the bonds(177)Compensated absences(964)	,274) ,067) ,251) ,659)	
Net OPEB Liability - Muultiple Employer Plan (9,711		 (284,820,513)
TOTAL NET POSITION - GOVERNMENTAL ACTIVITIES		\$ (84,659,030)

East Penn School District Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes In Fund Balances to the Statement of Activities For the Year Ended June 30, 2021

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ 8,736,037
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period. Depreciation expense \$ 4,772,242 less - capital outlays 2,082,066	(2,690,176)
In the statement of activities, only the gain on the sale of the capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of fixed assets sold.	(2,268)
Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred inflows of resources increased by this amount this year.	295,323
Repayment of bond and note lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	7,793,000
In the statement of activities, certain operating expensescompensated absences (vacations) and special termination benefits (early retirement) - are measured by the amounts earned during the year. In the governmental funds; however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used.	 (23,238)

SUB-TOTAL IN CHANGES BETWEEN BASIS OF ACCOUNTING

14,108,678

East Penn School District Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes In Fund Balances to the Statement of Activities For the Year Ended June 30, 2021

SUB-TOTAL IN CHANGES BETWEEN BASIS OF ACCOUNTING (cont'd)	\$ 14,108,678
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due. This would include accumulated interest accreted on capital appreciation bonds. The additional interest accrued in the statement of activities over the amount due is shown here.	499,076
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Refunding bond issues becomes a use of current financial resources in governmental funds, but refundings represent payments of long-term debt in the statement of net position. This figure represents the difference between bond proceeds and refunding payments made to paying agents.	(98,044)
In the statement of activities, certain operating revenues are recognized when earned versus the revenues using the modified accrual basis of accounting in the fund statements that are recognized when the funds are available. As such, the amount shown here represents the difference between earned revenues and revenues that are earned, but not available.	-
The governmental funds use the purchase method of inventory, where all items purchased are charged to expenditures. However, the statement of activities is reflected on the consumption method of recording inventory type items; therefore, this adjustment reflects the inventory difference.	-
The difference between current year pension/OPEB expense reported on the governmental activities column of the government-wide financial statements and the pension/OPEB contributions made this past year reported as expenditures in the governmental funds.	 (5,521,120)

Note 1 - Description of the School District and Reporting Entity

School District

The East Penn School District is located in eastern Pennsylvania in the southern portion of Lehigh County, approximately seven miles to the south and west of Allentown, the county seat of Lehigh County. Encompassing 45.4 square miles in Lehigh County, the School District is comprised of Alburtis, Emmaus, and Macungie Boroughs, and Lower Macungie and Upper Milford Townships.

Prior to 1966 and pursuant to law, the former School Districts of the Boroughs of Emmaus, Alburtis, and Macungie, and the Townships of Lower Macungie and Upper Milford, Lehigh County, formed the East Penn Union School District. Pursuant to Act 299 of the 1963 Pennsylvania Legislature requiring a consolidation of school districts, effective July 1, 1966, the East Penn Union School District formed the East Penn School District. The reorganized School District has assumed all rights and obligations of the predecessor school district.

The East Penn School District is a unit established, organized and empowered by the Commonwealth of Pennsylvania for the express purpose of carrying out, on the local level, the Commonwealth's obligation to public education, as established by the constitution of the Commonwealth and by the School Law Code of the same (Article II; Act 150, July 8, 1968).

As specified under the School Law Code of the Commonwealth of Pennsylvania, this and all other school districts of the state "shall be and hereby are vested as, bodies corporate, with all necessary powers to carry out the provisions of this act." (Article II, Section 211).

Board of School Directors

The public school system of the Commonwealth shall be administered by a board of school directors, to be elected or appointed, as hereinafter provided. At each election of school directors, each qualified voter shall be entitled to cast one vote for each school director to be elected.

The East Penn School District is governed by a board of nine School Directors who are residents of the School District and who are elected every two years, on a staggered basis, for a four-year term.

The Board of School Directors has the power and duty to establish, equip, furnish, and maintain a sufficient number of elementary, secondary, and other schools necessary to educate every person, residing in such district, between the ages of six and twenty-one years, who may attend.

In order to establish, enlarge, equip, furnish, operate, and maintain any schools herein provided, or to pay any school indebtedness which the school district is required to pay, or to pay any indebtedness that may at any time hereafter be created by the school district, the board of school directors are vested with all the necessary authority and power annually to levy and collect the necessary taxes required and granted by the legislature, in addition to the annual State appropriation, and are vested with all necessary power and authority to comply with and carry out any or all of the provisions of the Public School Code of 1949.

Administration

The Superintendent of Schools shall be the executive officer of the Board of School Directors and, in that capacity shall administer the School District in conformity with Board policies and the School Laws of Pennsylvania. The Superintendent shall be directly responsible to, and therefore appointed by, the Board of School Directors. The Superintendent shall be responsible for the overall administration, supervision, and operation of the School District.

The Business Administrator, recommended by the Superintendent and appointed by the Board of School Directors, shall supervise and coordinate all business and operational aspects of the School District. In this capacity, he or she shall be responsible to insure that all work accomplished by him/her, or by persons under his/her supervision, is in the best interests of the East Penn School District. The Business Administrator is directly responsible to the Superintendent.

Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For East Penn School District, this includes general operations, food service, and student related activities of the School District.

East Penn School District is a municipal Corporation governed by an elected nine-member board. As required by generally accepted accounting principles, these financial statements are to present East Penn School District (the primary government) and organizations for which the primary government is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are financially dependent on the School District in that the School District approved the budget, the issuance of debt, or the levying of taxes. The East Penn School District does not have any component units.

Joint Ventures

Lehigh Career and Technical Institute

The School District is a participating member of the Lehigh Career and Technical Institute (LCTI). The LCTI is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the LCTI's annual operating budget. Each participating district pays a pro-rata share of the LCTI's operating costs based on the number of students attending the LCTI for each District. The District's share of the LCTI operating costs for 2020-21 was \$2,557,013.

On dissolution of the Lehigh Career and Technical Institute, the net position of LCTI will be shared on a pro-rata basis of each participating district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board. However, the District does not have an equity interest in LCTI as defined by GASB Statement No. 14, except a residual interest in the net position upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the LCTI can be obtained from the LCTI's administrative office at 2300 Main Street, Schnecksville, PA.

Lehigh-Carbon Community College.

The District is a participating member of the Lehigh-Carbon Community College (LCCC). The LCCC is run by a Board of Trustees elected by the participating member districts' boards of directors. No participating district appoints a majority of the Board of Trustees. A vote of two-thirds of all member districts shall be required for approval of the LCCC's annual operating budget. The amount of the annual operating costs of the LCCC shall be apportioned among the member districts on the basis of the number of full-time equivalent students enrolled in LCCC and residing in the respective geographical areas of each of the member districts. The District's share of LCCC's operating costs for 2020-21 was \$899,852.

On dissolution of the Lehigh-Carbon Community College, the net position of LCCC will be shared on a pro-rata basis of each member district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board. However, the District does not have an equity interest in LCCC as defined by GASB Statement No. 14, except a residual interest in the net position upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the LCCC can be obtained from the LCCC's administrative office at 2300 Main Street, Schnecksville, PA.

Jointly Governed Organizations

Carbon-Lehigh Intermediate Unit

The School District is a participating member of the Carbon-Lehigh Intermediate Unit (CLIU). The CLIU is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the CLIU's annual operating budget. The CLIU is a self-sustaining organization that provides services for fees to participating districts. As such, the District has no on-going financial interest or financial responsibility in the CLIU. The CLIU contracts with participating districts to supply special education services, computer services, and acts as a conduit for certain federal programs.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the District have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. On June 15, 1987, the GASB issued a codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of these accounting policies are described below and, where appropriate, subsequent pronouncements will be referenced. GASB Statement No. 62 was issued to include all prior Financial Accounting Standards Board's statements and interpretations, along with predecessors' statements and interpretations pertaining to governmental Accounting Standards Board's jurisdiction.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position, a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

East Penn School District Notes To Basic Financial Statements Fiscal Year Ended June 30, 2021

The statement of net position presents the financial condition of the governmental and business-type activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for one business-type activity of the School District. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

B. Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Deferred outflows of resources is recorded in a particular governmental fund where costs are spent for a future period. Current Liabilities are assigned to the governmental fund from which they will be paid. Deferred inflows of resources is recorded in a particular governmental fund that has received resources for a future period. The difference between the sum of assets and deferred outflows of resources minus the sum of liabilities and deferred inflows of resources is reported as fund balance. The following are the School District's major governmental funds.

General Fund

The General Fund should be used to account for and report all financial resources not accounted for and reported in another fund.

Special Revenue Fund

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term proceeds of specific revenue sources establish that one or more specific restricted or committed revenues should be the foundation for a special revenue fund. The restricted or committed proceeds of specific revenue sources should be expected to continue to comprise a substantial portion of the inflows reported in the fund. Other resources also may be reported in the fund if those resources are restricted, committed, or assigned to the specified purpose of the fund.

Under this new definition, the District does not have any special revenue funds.

Capital Project Funds

Capital Project Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital project funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments. The District has the following Capital Project Funds:

Capital Reserve Fund

This fund was created in accordance with Section 1432 of the Municipal Code. The Municipal Code restricts how the resources are spent within this fund.

Proprietary Funds Proprietary funds focus on the determination of changes in net position, financial position and cash flows and are classified as enterprise funds. The Proprietary Funds of the School District have operating and nonoperating revenues and/or expenses. Transactions for which cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are reported as nonoperating revenues and/or expenses, including subsidies received from the state and federal government for school lunches, donated commodities, and amounts received for fica and retirement subsidies. Operating revenues reported are consistent with the fees or charges incurred based on the intent of the individual proprietary fund.

Enterprise Funds

Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The School District's major enterprise fund is:

Food Service Fund

This fund accounts for the financial transactions related to the food service operations of the School District.

Fiduciary Funds Fiduciary funds reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: Pension (and other employee benefit) trust funds, investment trust funds, Private-purpose trust funds and Custodial funds. The School District has two Fiduciary Funds

Memorial Trust Fund – This fund is a considered a <u>private purpose trust fund</u> and is reported as such in the Statement of Net Position Fiduciary Funds and the Statement of Changes in Fiduciary Net Position. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs.

Student Activity Fund – This fund is considered a <u>custodial fund</u> and is reported as such in the Statement of Net Position Fiduciary Funds and the Statement of Changes in Fiduciary Net Position. Custodial funds are used to report fiduciary activities that are not required to be reported in one of the other three Fiduciary fund types.

Government-Wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the School District are included on the statement of net position.

East Penn School District Notes To Basic Financial Statements Fiscal Year Ended June 30, 2021

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet, along with deferred outflows of resources or deferred inflows of resources required to be reported. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation's with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all enterprise funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities, including required deferred outflows of resources or required deferred inflows of resources, associated with the operation of these funds are included on the statement of fund net position. The statement of revenues, expenses, and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its enterprise activities.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

D. Budgetary Process

An operating budget is adopted prior to the beginning of each year for the General Fund on the modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required.

In accordance with Act 1 of 2006, the Board shall annually, but not later than the first business meeting of January, decide the budget option to be used for the following fiscal year. The Board shall approve either the Accelerated Budget Process Option or the Board Resolution Option.

Accelerated Budget Process Option

Under this option, a preliminary budget must be prepared 150 days prior to the primary election. Under this Option, the preliminary budget must be available for public inspection at least 110 days prior to the primary election. The Board shall give public notice of its intent to adopt the preliminary budget at least 10 days prior to the adoption. The adoption must occur at least 90 days prior to the primary election.

If the preliminary budget exceeds the increase authorized by the Index, an application for an exception may be filed with either a Court of Common Pleas with jurisdiction or PDE and made available for public inspection. The Board may opt to forego applying for an exception by submitting a referendum question seeking voter approval for a tax increase, in accordance with Act 1.

The final budget shall include any necessary changes from the adopted preliminary budget. Any reduction required as the result of the failure of referendum shall be clearly stated. The final budget shall be made available for public inspection at least 20 days prior to final adoption. The Board shall annually adopt the final budget by a majority vote of all members of the Board prior to June 30.

Board Resolution Option

Under the Board Resolution Option, the Board shall adopt a resolution that it will not raise the rate of any tax for the following fiscal year by more than the Index. Such resolution shall be adopted no later than 110 days prior to the primary election. At least 30 days prior to adoption of the final budget the Board shall prepare a proposed budget. The proposed budget shall be available for public inspection at least 20 days prior to adoption of the budget. The Board shall give public notice of its intent to adopt at least 10 days prior to adoption of the proposed budget. The Board shall annually adopt the final budget by a majority vote of all members of the Board by June 30.

Legal budgetary control is maintained at the sub-function/major object level. The PA School Code allows the School Board to make budgetary transfers between major function and major object codes only within the last nine months of the fiscal year, unless there is a two-thirds majority of the Board approving the transfer. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the PDE 2028 when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all 2020-21 budget transfers.

E. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

F. Changes in Accounting Principles

During the 2020-21 fiscal year the School District implemented the following new generally accepted accounting principles:

GASB Statement No. 84 (Fiduciary Activities). This Statement is designed to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. The adoption of this Statement changed the presentation of the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position, as well

as resulted in a restatement of governmental funds balance and of governmental activities and custodial net position.

GASB Statement No. 90 (Accounting and Financial Reporting for Majority Equity Interests). This Statement is designed to improve consistency and comparability when a government has a majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. The adoption of this Statement has no effect on previously reported amounts.

GASB Statement No. 97 (Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans). This Statement is designed to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution OPEB plans, and employee benefit plans other than pension plans or OPEB plans as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for the IRC Section 457 deferred compensation plans that meet the definition of a pension plan and for benefits provided through those plans. The adoption of this Statement has no effect on previously reported amounts.

G. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System and additions to/deductions from the Public School Employees' Retirement System's fiduciary net position have been determined on the same basis as they are reported by the Public School Employees' Retirement System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

H. Other Postemployment Benefits

Multiple Employer Cost Sharing OPEB Plan

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Single Employer OPEB Plan

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information was obtained from the Actuary Report conducted by Conrad Siegel. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. The single employer plan is not funded.

I. Assets, Liabilities, and Net Position

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Proprietary Fund type considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents.

Investments

In accordance to GASB Statement No. 72, investments generally are to be measured at fair value. An investment is defined as a security or other asset that (a) a government holds primarily for the purpose of income or profit and (b) has the present service capacity based solely on its ability to generate cash or to be sold to generate cash. Investments not measured at fair value continue to include, for example, money market investments, 2a7-like external investment pools, investments in life insurance contracts, common stock meeting the criteria for applying the equity method, unallocated insurance contracts, and synthetic guaranteed investment contracts.

A government is permitted in certain circumstances to establish the fair value of an investment that does not have a readily determinable fair value by using the net asset value per share of the investment.

This Statement requires measurement at acquisition value (an entry price) for donated capital assets, donated works of art, historical treasures, and similar assets. These assets were previously required to be measured at fair value.

Fair Value is measured using a hierarchy of inputs using valuation techniques. The hierarchy has three levels. Level 1 inputs are quoted prices in active markets for identical assets or liabilities. Level 2 inputs are inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs

The valuation techniques should be consistent with one or more of the following approaches: the market approach, the cost approach, or the income approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

The cost approach reflects the amount that would be required to replace the present service capacity of an asset. The income approach converts future amounts (such as cash flows or income and expenses) to a single current (discounted) amount.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Property Tax Levy

Property taxes, which were levied during the fiscal year ended June 30, 2021, are recognized as revenue in the fund financial statements when received by the District during the fiscal year and also estimated to be received by the District within sixty (60) days after the fiscal year ended.

Property taxes that were levied during the current fiscal year, which are not estimated to be received within sixty (60) days after the fiscal year-end, are recorded as receivable and deferred inflows of resources in the fund financial statements.

In the government-wide financial statements, all property taxes levied during the fiscal year are recognized as revenue, net of estimated uncollectible amount.

Inventories

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used. As of June 30, 2021, the inventory shown in the governmental activities column of the government-wide statement of net position is \$5,980 and \$41,173 is shown as inventory in the business-type activities column of the government-wide statement of net position.

Inventory type items in governmental funds utilize the purchase method, that is, they are charged to expenditures when purchased. There was no physical inventory taken as of June 30, 2021; therefore, there is no offsetting nonspendable fund balance in the General Fund.

Inventory type items in Proprietary Funds use the consumption method, in which items are purchased for inventory and charged to expenses when used. The only Proprietary Fund of the District is the Food Service Fund. Inventory within this fund consists of supplies, purchases, food, and donated commodities, which are valued at U.S.D.A.'s approximate costs. Inventories on hand at June 30, 2021, consist of:

Donated Commodities Supplies Food	\$	21,860 7,196 12,117
TOTAL	<u>\$</u>	41,173

Prepaid Expenses

In both the government-wide and fund financial statements, prepaid expenses are recorded as assets in the specific governmental fund in which future benefits will be derived.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their acquisition values as of the date received. The School District maintains a capitalization threshold of two thousand-five hundred (\$2,500) dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets utilized by the enterprise funds is also capitalized.

All reported capital assets, except land, certain land improvements, and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

10 - 50 years	10 - 50 years
5 - 20 years	5 - 20 years
8 years	8 years
	,

Compensated Absences

The School District reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences". Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination method. An accrual for earned sick leave is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. In enterprise funds, the entire amount of compensated absences is reported as a fund liability.

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discounts, and deferred amounts on refunding's are deferred and amortized over the life of the bonds using modification of the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Any deferred amount on refunding's are reported as deferred outflows of resources and amortized over the life of the bond issue. Bond issuance costs are expensed in the year they are incurred.

In the governmental fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts and premiums on debt issuances are reported as other financing uses and other financing sources, respectively. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as support service expenditures.

Reclassification

Certain amounts have been reclassified to conform to the June 30, 2021, presentation of governmentwide financial statements on the accrual basis of accounting versus the governmental fund financial statements reported on the modified accrual basis of accounting.

Net Position

Net Position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net Investment in Capital Assets component of Net Position is comprised of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. In addition, any deferred outflows of resources and/or deferred inflows of resources related to such capital assets or liabilities associated with the capital assets should also be added to or deducted from the overall Net Investment in Capital Assets. The restricted component of Net Position is used when there are limitations imposed on their use either through the enabling legislation adopted by a higher governmental authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The remaining component of Net Position is unrestricted.

The School District applies restricted resources first when an expense is incurred for purposes for which both the restricted and unrestricted components of net position are available.

Fund Balance Categories

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Below are the potential categories of fund balance the government may use with their definitions, the actual categories used is explained in Note 9 to the financial statements:

Nonspendable Fund Balance

This category includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance

Fund balance should be reported as restricted when constraints placed on the use of resources are externally imposed by creditors, grantors, contributors, or other government laws or regulations, or the constraint is imposed by enabling legislation or constitutional provisions.

Committed Fund Balance

This category pertains to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. The committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action.

This government's governing body is the School Board and the formal action taken to commit resources is done by resolution.

Assigned Fund Balance

This category includes all remaining amounts that are reported in governmental funds, except the general fund, that are not classified in one of the above-mentioned categories. In the general fund, this category represents the District's intent to use resources for a specific purpose, which does not require formal action by the governing body. The District's policy dictates the Superintendent and Business Manager are responsible to make these assignments.

Unassigned Fund Balance

This category of fund balance represents the residual classification for the general fund after segregating resources used in the other categories listed above. Unassigned fund balance will only be shown in other governmental funds if those governmental funds have a negative net fund balance.

The District's policy on fund balance does not dictate which category of unrestricted fund balance is spent first, when resources are available to be spent in various categories. As such, committed amounts will be reduced first, followed by assigned amounts, and then unassigned amounts. The District's policy also does not dictate whether restricted (nonspendable or restricted) or unrestricted (committed, assigned, and unassigned) is spent first when resources are available in both categories. As such, in these circumstances, restricted will be assumed to have been spent first followed by the unrestricted categories.

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of fixed assets, or from grants or outside contributions of resources restricted to capital acquisition and construction. The proprietary funds did not receive any capital contributions during this fiscal year.

Note 3 - Reconciliation of Government-Wide and Fund Financial Statements

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes reconciliation between "fund balance - total governmental funds" and "net position - governmental activities" as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds".

The details of the \$284,820,513 differences are:

Bonds/Notes payable	\$ 30,496,000
Less: Issuance discount (to be amortized as interest expense)	-
Add: Issuance premium (to be amortized as a contra to	
interest expense)	1,253,620
Accrued interest payable	177,274
Defined Benefit Net Pension Liability	218,715,659
Net Defined Contribution Pension Liability	761,251
Net OPEB Liability - Single Employer Plan	22,740,815
Net OPEB Liability - Multiple Employer Plan	9,711,827
Compensated absences	 964,067
Net adjustment to reduce "fund balance - total governmental funds" to arrive at "net position - governmental activities"	\$ 284,820,513

B. Explanation of Differences between Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Statement of Activities

Due to the differences in the measurement focus and basis of accounting used on the governmental fund statements and district-wide statements certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. Differences between the governmental funds statement of revenues, expenditures, and changes in fund balance and the statement of activities fall into one of three broad categories. The amounts shown in the columns on the following page represent:

- a) Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities. The long-term expenses reported below recognize the change in vested employee benefits.
- b) Capital related differences include (1) the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and (2) the difference between recording an expenditure for the purchase of capital items in the governmental fund statements, and capitalization and recording of depreciation expense on those items as recorded in the statement of activities.

c) Long-term debt transaction differences occur because long-term debt proceeds are recorded as revenue and both interest and principal payments are recorded as expenditures in the governmental fund statements. In the statement of activities, long-term debt proceeds are recorded as a liability; principal payments are recorded as a reduction of liabilities.

Note 4 - Stewardship, Compliance, and Accountability

A. Compliance with finance related legal and contractual provisions

The District has no material violations of finance related legal and contractual provisions.

B. Deficit fund balance or net position of individual funds

No individual fund contains a deficit fund balance or net position at June 30, 2021, except the governmental activities had a deficit of \$84,659,030, and the business-type activity (Food Service Fund) had a deficit of \$3,201,264.

C. Excess of expenditures over appropriations in individual funds

No individual fund, which had a legally adopted budget, had an excess of expenditures over appropriations.

Budgetary compliance

The District's only legally adopted budget is for the General Fund. All budgetary transfers were made within the last nine months of the fiscal year. The District cancels all purchase orders open at year-end; therefore, it does not have any outstanding encumbrances at June 30, 2021. In addition, the District includes a portion of the prior year's fund balance represented by unappropriated liquid assets remaining in the fund as budgeted revenue in the succeeding year. The results of operations on a GAAP basis do not recognize the fund balance allocation as revenue as it represents prior period's excess of revenues over expenditures.

Note 5 - Detailed notes on all funds and account groups

Cash

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a policy for custodial credit risk. As of June 30, 2021, \$13,282,214, of the District's bank balance of \$14,198,315 was exposed to custodial credit risk as follows:

the District's name TOTAL	\$ 13,282,214 13,282,214

TOTAL CASH PER FINANCIAL STATEMENTS	\$ 26,990,326

Investments

Permitted investments for East Penn School District are defined in the Public School Code of 1949, as amended by Act 10 of 2016 as:

- **1.** United States Treasury Bills;
- 2. Short-term obligations of the United States Government or its agencies or instrumentalities;
- **3.** Deposits in savings accounts or time deposits or share accounts of institutions insured by the F.D.I.C; and,
- 4. Obligations of the United States of America or any of its agencies or instrumentalities, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities or any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities.
- **5.** Obligations, participations or other instruments of any Federal Agency, instrumentality or United States government sponsored enterprise, including those issued or fully guaranteed

as the principal and interest by Federal agencies, instrumentalities or United States government sponsored enterprises, if the debt obligations are rated at least "A" or its equivalent by at least two nationally recognized statistical ratings organizations.

- **6.** Repurchase agreements with respect to United States Treasury bills or obligations, participations or other instruments of or guaranteed by the United States or any Federal agency, instrumentality or United States government sponsored enterprise.
- 7. Negotiable certificates of deposit or other evidences of deposit, with a remaining maturity of three years or less, issued by a nationally or State-chartered bank, a Federal or State savings and loan association or a State-licensed branch of a foreign bank. For obligations with a maturity of one year or less, the debt obligations of the issuing institution or its parent must be rated in the top short-term rating category by at least two nationally recognized statistical ratings organizations. For obligations with a maturity in excess of one year, the senior debt obligations of the issuing institution or its parent must be rated at least "A" or its equivalent by at least two nationally recognized statistical ratings organizations.
- 8. Bills of exchange or time drafts drawn on and accepted by a commercial bank, otherwise known as bankers' acceptances, if the bankers' acceptances do not exceed 180 days maturity and the accepting bank is rated in the top short-term category by at least two nationally recognized statistical ratings organizations.
- **9.** Commercial paper issued by corporations or other business entities organized in accordance with Federal or State law, with a maturity not to exceed 270 days, if the paper is rated in the top short-term category by at least two nationally recognized statistical ratings organizations.
- **10.** Shares of an investment company registered under the Investment Company Act of 1940, whose shares are registered under the Securities Act of 1933 and, if all of the following conditions are met:
 - The investments of the company are the authorized investments listed above.
 - The investment company is managed in accordance with 17 CFR 270.2a-7 (related to money market funds.
 - The investment company is rated in the highest category by a nationally recognized rating agency.
- **11.** Savings or demand deposits placed in accordance with the following conditions:
 - The money is initially deposited and invested through a federally insured institution having a place of business in this Commonwealth, which is selected by the public corporation or municipal authority.
 - The selected institution arranges for the redeposit of the money in savings or demand deposits in one or more financial institutions insured by the Federal Deposit Insurance Corporation, for the account of the public corporation or municipal authority.
 - The full amount of principal and any accrued interest of each such deposit is insured by the Federal Deposit Insurance Corporation.

• On the same date that the money is redeposited pursuant to above, the selected institution receives an amount of deposits from customers of other financial institutions equal to or greater than the amount of money initially invested through the selected institution by the public corporation or municipal authority.

As of June 30, 2021, the District had the following investments:

Investment	Maturities	F	air Value
PSDLAF		\$	18,501,800
KeyBank Certificate of Deposit			10,014,637
Embassy Bank Certificate of Deposit			5,086,504
TOTAL	-	\$	33,602,941

Interest Rate Risk

The District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The District has no investment policy that would limit its investment choices to certain credit ratings. As of June 30, 2021, the District's investments in PSDLAF were rated AAA by Standard & Poor's.

Concentration of Credit Risk

The District places no limit on the amount the District may invest in any one issuer. Of the General Fund's investments, 24.69% were invested in a Certificate of Deposit with Embassy Bank and 48.62% were invested in a Certificate of Deposit with KeyBank. Of the Governmental Funds' investments, 15.14% were held in a Certificate of Deposit with Embassy Bank and 29.80% held in a Certificate of Deposit with KeyBank. Of the investments held entity wide, 15.14% were held in a Certificate of Deposit with Embassy Bank and 29.80% held in a Certificate of Deposit with Embassy Bank and 29.80% held in a Certificate of Deposit with Embassy Bank and 29.80% held in a Certificate of Deposit with Embassy Bank and 29.80% held in a Certificate of Deposit with KeyBank.

Reconciliation to Financial Statements

Total Investments Above	\$ 33,602,941
Less: Deposits in Investment Pool Considered Cash Equivalents	 (18,501,800)
Total Investments Per Financial Statements	\$ 15,101,141

Fair Value Reporting

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Property Taxes

Property taxes are levied on July 1, on the assessed value listed, as of that date, for all taxable real property located in the District. Assessed values are established by the County Board of Assessments. All taxable real property was assessed at \$5,598,220,200. The tax rate for the year was \$1.86013 per \$100 of assessed valuation or 18.6013 mills. In accordance with Act 1 of 2006, the District received \$1,826,735 in property tax reduction funds for the 2020-21 fiscal year. The property tax calendar is:

July 1	- Full year tax assessed for current year.
July 1 - August 31	- Discount period during which a 2% discount is allowed.
September 1 - October 31	- Face amount of tax is due
November 1 - January 15	- A 10% penalty is added to all payments.
January 15	 All unpaid taxes become delinquent and are turned over to the County Tax Claim Bureau for Collection.

The School District, in accordance with GAAP, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes was determined by the administration. A portion of the net amount estimated to be collectible, which was measurable and available within 60 days, was recognized as revenue and the balance deferred in the financial statements.

Receivables

Receivables, as of year-end, for the government's individual major funds and non-major, and fiduciary funds, in the aggregate, including the applicable allowances for uncollectible accounts, are:

	0	GENERAL FUND	PRO	PITAL DJECT JNDS	FOOD ERVICE FUND	MA	ON- JOR NDS	 JCIARY JNDS	TOTAL
RECEIVABLES:									
Interest	\$	-	\$	-	\$ -	\$	-	\$ -	\$ -
Taxes		2,200,735		-	-		-	-	2,200,735
Accounts		22,803		-	229,678		-	868	253,349
Intergovernmental		6,881,574		-	94,160		-	-	6,975,734
GROSS RECEIVABLES Less: Allowance for		9,105,112		-	 323,838		-	 868	9,429,818
Uncollectibles		-		-	 -		-	 -	 -
NET RECEIVABLES	\$	9,105,112	\$	-	\$ 323,838	\$	-	\$ 868	\$ 9,429,818

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred inflows of resources reported in the governmental funds are:

	UN	AVAILABLE	UN	IEARNED
Delinquent Property Taxes - General Fund	\$	1,731,599	\$	-
Deposit on TIF Real Estate Tax Arrangement		-		276,374
Grants drawdowns prior to meeting				
eligibility requirements		-		-
TOTAL	<u>\$</u>	1,731,599	\$	276,374

Capital Assets

Capital asset balances and activity for the year ending June 30, 2021, were:

	-	BEGINNING BALANCE	INCREASES	D	ECREASES	ENDING BALANCE
GOVERNMENTAL ACTIVITIES:						
Capital Assets not being depreciated:						
Land	\$	10,988,723	\$ -	\$	-	\$ 10,988,723

The government disposed of \$22,683 in equipment during the year, with accumulated depreciation of \$20,415, leaving a gain on disposition of \$2,268. The business-type activities did not dispose any capital assets during the year.

Commitments

Encumbrances

Any encumbrances outstanding at year-end do not represent GAAP expenditures or liabilities but represent budgetary accounting controls. The General Fund Budget is maintained on the modified accrual basis of accounting, except that budgetary basis expenditures include any encumbrances issued for goods or services not received at year-end and not terminated.

The actual results of operations are presented in accordance with GAAP and the District's accounting policies do not recognize encumbrances as expenditures until the period in which the goods or services are actually received and a liability is incurred. If budgetary encumbrances exist at year-end, they are included in the fund financial statements to reflect actual revenues and expenditures on a budgetary basis consistent with the District's legally adopted budget.

<u>General Obligation Bonds – Series of 2012</u>

On January 17, 2012, the District issued \$9,500,000 of General Obligation Bonds – Series of 2012. The proceeds will be used (1) to refund the School District's outstanding GOB Series A of 2006 (2) to pay costs of issuing the bonds.

In accordance with the Local Governmental Unit Debt Act, a sinking fund has been established with the paying agent. The bonds mature from September 15, 2013 to September 15, 2024. Interest rates range from 2.00% to 2.25% with total indebtedness of \$1,888,488.

The General Obligations Bonds of 2012 and the General Obligation Bonds Series B of 2015 were refinanced this fiscal year. The economic gain is reflected in the note for the General Obligation Bonds, Series B of 2015.

General Obligation Bonds – Series B of 2015

On March 30, 2015, the District issued \$4,050,000 of General Obligation Bonds – Series B of 2015. The proceeds will be used (1) to refund the School District's outstanding GOB Series A of 2010 (2) to pay costs of issuing the bonds.

In accordance with the Local Governmental Unit Debt Act, a sinking fund has been established with the paying agent. The bonds mature from October 1, 2015 to October 1, 2023. Interest rates at 2% total interest indebtedness of \$481,725.

On August 3, 2020 the District refunded the GOB Series of 2012 with principal amount of \$6,555,000 interest rates from 2.00% to 2.50% and the GOB Series B of 2015 with principal amount of \$2,785,000 interest rates at 2.00% being refunded with new debt GON Series of 2020 with principal amount of \$9,511,000. Interest rates for the new debt is fixed at 0.970%.

Lease Rental Debt

The Lehigh Career and Technical Institute (LCTI), with authority of the nine participating school districts, have agreed to borrow up to \$53,715,000 to improve the Institute's facilities. The participating districts, such as East Penn School District, will be required to pay their proportionate shares of the incurred debt under the Articles of Agreement in subsequent years as "Capital Costs" under Section 4.2 of the Articles.

Specifically, Lehigh Career and Technical Institute issued \$32,000,000 of revenue bonds - Series of 2003 dated March 15, 2003, and \$21,715,000 of revenue bonds - Series of 2001 dated September 15, 2001, through the State Public School Building Authority (SPSBA). The bonds are special limited obligations of the SPSBA. During the 2005-06 fiscal year, these issues have been refunded with new issues.

The LCTI financing translates into an ongoing obligation of the participating districts for credit purposes; however, for purposes of the Local Governmental Unit Debt Act, this borrowing is not considered general obligation debt of the school districts; therefore, the future obligations of debt service are not recorded as a liability on East Penn's financial statements.

Combined Long-Term Debt

The combined general long-term debt obligations for subsequent years, except for compensated absences and retirement benefits: are:

Compensated Absences

Sick-Pay

Under the District's various bargaining agreements and plans, professional and eligible support personnel accumulate unused sick days from year to year based on their classification. These accumulated sick days are non-vesting during the employee's tenure. Only administrators employed prior to July 1, 2004 who have opted to retain this benefit are eligible for payment. Upon retirement, these employees, except for administrators, are eligible for remuneration for unused sick days under the following bargaining agreements:

1.	East Penn Education Association Members	- \$25 per day
2.	Teamsters Union Members	- \$22 per day
3.	Secretarial & Aide Members	- \$20 per day
4.	Administrative Plan Members	- \$25 per day

The District maintains records of each employee's accumulated sick days that are vested with employees who are eligible to retire, and for those under the administrative plan. In accordance with GASB Statement No. 16, \$31,002, including FICA tax (net of reimbursement), has been recorded in the Food Service (Enterprise) Fund for sick leave termination benefits earned by Cafeteria employees at June 30, 2021. This amount is also included as a long-term liability in the business-type activity column of the government-wide statement of net position. The amount recorded in the General Fund for governmental employees, which will use currently available financial resources, is \$274,290, including FICA tax (net of reimbursement). This amount is reflected as a current liability in the governmental activities column of the government-wide statement of net position. The remaining sick leave termination benefit of \$728,971, including FICA tax (net of reimbursement), is recorded as a long-term liability in the governmental activities column of the government-wide statement of net position.

Vacation Leave

Unused vacation leave is paid upon an employee's termination. The District maintains records of each employee's accumulated vacation days. In accordance with GASB Statement No. 16, the portion of vacation pay earned at June 30, 2021, that will use currently available financial resources is \$72,080, including FICA tax and retirement contributions (net of reimbursement), which has been recorded in the General Fund. This amount is also shown as a current liability in the governmental activities column of the government-wide statement of net position. The Enterprise (Food Service) Fund has recorded \$-0-, including FICA tax and retirement contributions (net of reimbursement), which is also reflected as a long-term liability in the business-type activity column of the government-wide statement of net position. The remaining vacation pay earned at June 30, 2021, of \$235,096, including FICA tax and retirement contributions (net of reimbursement) is recorded as a long-term liability in the governmental activities column of the government of net position.

Defined Benefit Pension Plan

The Government Accounting Standards Board (GASB) requires that state and local governmental employers disclose in their notes to financial statements, certain information about the public employee retirement systems to which they contribute.

General Information about the Pension Plan

Plan Description

The Public School Employees' Retirement System (PSERS) is a governmental cost-sharing multiemployer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.state.pa.us.

Benefits Provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Contributions

Member Contributions

Active members, who joined the System prior to July 22, 1983, contributed at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983 and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

East Penn School District Notes To Basic Financial Statements Fiscal Year Ended June 30, 2021

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011 who elect Class T-F membership contributes at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Employer Contributions

The school districts' contractually required contribution rate for fiscal year ended June 30, 2021 was 33.69% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the District were \$21,061,723 for the year ended June 30, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability of \$222,820,797 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by rolling forward the system's total pension liability as of June 30, 2019 to June 30, 2020. The District's proportion of the net pension liability was calculated utilizing the employer's one-year reported contributions as it relates to the total one-year reported contributions. At June 30, 2021, the District's proportion was 0.4586 percent, which was an increase of 0.0076 percent from its proportion measured as of June 30, 2020.

For the year ended June 30, 2021, the District recognized pension expense of \$25,300,607. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Sources	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between Proportionate Share vs Actual				
Paid Separately Finance Liabilities	\$	-	\$	115,530
Changes in Assumptions		-		-
Net difference between projected and actual contributions made Net difference between projected and actual		-		326,218
earnings on pension plan investments		9,924,000		-
Difference between expected and actual				
experience		-		4,821,000
Changes in proportion of the Net Pension Liability		4,538,000		-
District contributions subsequent to the				
measurement date		21,061,723		_
Total	\$	35,523,723	\$	5,262,748

\$21,061,723 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

East Penn School District Notes To Basic Financial Statements Fiscal Year Ended June 30, 2021

Year ended June 30:	<u>Amount</u>	
2021	\$	711,000
2022		1,935,872
2023		3,718,725
2024		2,856,512
Thereafter		(22,857)
Total	\$	9,199,252

Actuarial Assumptions

The total pension liability of June 30, 2020, was determined by rolling forward the System's total pension liability as of June 30, 2019 to June 30, 2020 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal level % of pay
- Investment return 7.25%, includes inflation at 2.75%
- Salary inceases Effective average of 5.00%, which reflects an allowance for inflation of 2.75%, and 2.25% for real wage growth and for merit or seniority increases
- Mortality rates were based on the RP-2014 Combined Healthy Annuitant Tables (male and female) adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Global public equity	15.0%	5.2%
Private Equity	15.0%	7.2%
Fixed Income	36.0%	1.1%
Commodities	8.0%	1.8%
Absolute return	10.0%	2.5%
Infrastructure/MLPs	6.0%	5.7%
Real estate	10.0%	5.5%
Risk parity	8.0%	3.3%
Cash	6.0%	-1.0%
Financing (LIBOR)	-14.0%	-0.7%
	100%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2020.

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or 1-percentage point higher (8.25%) than the current rate, using the net position liability reported by PSERS before adjusting for differences on projected vs actual contributions made.

	1% Decrease 6.25%		Current Disount Rate 7.25%		 1% Increase 8.25%	
District's proportionate share of the net pension liability	\$	279,375,000	\$	225,810,000	\$ 180,433,000	

Pension Plan Fiduciary Net Position

Detailed information about the PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.state.pa.gov.

Defined Contributions Pension Plan

Retirement Severance Benefits

Under various contracts with administrators, support staff and custodians a lump sum payment is offered upon retirement. The payment is based on a flat amount per year of service reduced by a per diem amount based on the number of sick days used in each year.

The lump sum payment shall be paid in full to the employee in one payment on the date to be determined by the employee after the employees' effective date of retirement. In the event of death of the employee, the lump sum payment will be paid in full to the employee's estate.

In accordance with Government Accounting Standards Board Statement No. 73, this benefit is considered a pension plan. The following is a summary of plan provisions:

Contributions

Employer Contributions

The school district pays this benefit on a pay-as-you-go basis. It does not accumulate funds into any trust for future benefits. Contributions to the pension plan from the District were \$19,092 for the year ended June 30, 2021.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2021, the District reported a liability of \$761,251 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020, with rolling forward the System's total pension liability as of June 30, 2021.

For the year ended June 30, 2021, the District recognized pension expense of \$85,003. The following table reflects the changes to the pension obligation during the year:

	<u>2020-21</u>
Total Defined Contribution Pension Liability - beginning	\$ 612,352
Service Cost Interest Changes in Benefit Terms	57,972 22,175 -
Difference between expected and actual experience Changes in assumptions Benefit payments Net change in total Pension Liability	 37,251 50,593 (19,092) 148,899
Total Defined Contribution Pension Liability - ending	\$ 761,251
Interest Rate	1.86%
Plan Members	38
Covered Payroll	\$ 4,233,729

Actuarial Assumptions

The total pension liability as of June 30, 2021 was determined by the actuarial valuation on July 1, 2020, with rolling forward the System's total pension liability using the following actuarial assumptions, applied to all periods included in the measurement.

- Actuarial cost method Entry Age Normal level % of pay
- Investment return 1.86%.

The actuarial assumptions used in the July 1, 2020 valuation were based on the experience study conducted by the actuary, including the assumed retirement rates based on PSERS plan experience and vary by age, service, and gender.

Schedule on Defined Contribution Pension Deferred Outflows/Inflows

District's proportionate share of the net OPEB Pension liability	\$	795,031	\$	761,251	\$	727,460

Other Employee Benefits

Special Termination Benefits

The East Penn School District's Board of School Directors has established an early retirement incentive program (ERIP) for those employees who meet certain qualifications. All professional employees will select, in writing, one of the two financial options:

Option 1

Upon meeting the requirements explained later, the District shall pay to the employee a total payment equal to his/her final base salary, at the time of application for ERIP, multiplied by the percentage appearing in the chart below. Such payment will be made during the first calendar year of ERIP at a time stipulated, in writing, by the retiree. The employee may opt to receive these monies in either one or two installments.

AGE OF PERSON ON JULY 1 OF ERIP YEAR	PERCENTAGE
54	50%
55	50%
56	40%
57	35%
58	30%
59	25%
60	20%

Option 2

Upon receipt of a letter of request and letter of intent to retire, the Board will approve the applicant's request for a sabbatical leave, if the employee is eligible by law, and waives the return-to-work provision. Under this option, the employee would not begin receiving PSERS benefits until the conclusion of the year's sabbatical leave.

The plan is on a voluntary basis. To be eligible to receive this retirement incentive, the employee must meet all of the following qualifications:

The employee must be an active (not on leave) member of the instructional or administrative staff at the time of request.

The employee must choose to begin the ERIP program on July 1, and must be at least the age of 54 or not older than 60 on the preceding June 30.

The employee must have a minimum of fifteen (15) consecutive years of service in the East Penn School District prior to the commencement of ERIP.

The employee must qualify for retirement under provisions of the Public School Employees Retirement System (PSERS).

A letter of resignation, application to PSERS for benefits, and an application for ERIP must be received in the Superintendent's office on or before May 1, of the school year proceeding the July 1, start date of ERIP.

In accordance with GASB Statement No. 47, an employer that provides voluntary termination benefits shall recognize a liability and an expense when the employees accept the offer and the amount can be reasonably estimated. The amount recognized shall include any lump-sum payments and the present value of any expected future payments. The District records a liability when an employee accepts the offer. As of June 30, 2021, there were no eligible persons that accepted the offer that were not paid or recorded as a liability under GASB Statement No 47.

Under the provisions of Board Policy 450, the East Penn School District will pay, for those employees electing the Early Retirement Incentive Program explained in the preceding note, the premium for the retiring employee in an early retiree's hospitalization/medical plan. Such coverage will continue until the employee becomes eligible for government sponsored hospitalization/medical insurance or reaches age 65. Such insurance plan will be substantially equivalent to the plan offered to regular employees, but will have a mandatory reduction in major medical benefits. The Actuary has included this benefit under Other-Post Employment Benefits.

OTHER POSTEMPLOYMENT BENEFITS

<u>General Information about the Health Insurance Premium Assistance Program – Multiple Employer OPEB</u> <u>Plan</u>

Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of- pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2020, there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ¹/₂ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program.

Pension Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at <u>www.psers.pa.gov</u>.

Benefits Provided

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2020, there were no assumed future benefit increases to participating eligible retirees.

Contributions

Employer Contributions

The school districts' contractually required contribution rate for the fiscal year ended June 30, 2021 was 0.82% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$512,633 for the year ended June 30, 2021.

<u>OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB</u>

At June 30, 2021, the District reported a liability of \$9,883,204 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2019 to June 30, 2020. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2021, the District's proportion was 0.4579 percent, which was an increase of 0.0069 percent from its proportion measured as of June 30, 2020.

For the year ended June 30, 2021, the District recognized OPEB expense of \$546,650. At June 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Sources		Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between Proportionate Share vs Actual					
Paid Separately Finance Liabilities	\$	-	\$	2,785	
Changes in Assumptions		186,000		-	
Net difference between projected and actual					
contributions made		-		3,742	
Net difference between projected and actual					
investment earnings		17,000		-	
Difference between expected and actual					
experience		91,000		-	
Changes in proportion of the Net OPEB Liability		248,000		-	
District contributions subsequent to the					
measurement date		512,633		_	
		012,000			
Total	\$	1,054,633	\$	6,527	

\$512,633 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	<u>Amount</u>
2021	\$ 78,000
2022	74,650
2023	71,650
2024	155,645
2025	105,829
Thereafter	49,699
Total	\$ 535,473

Actuarial Assumptions

The Total OPEB Liability as of June 30, 2020, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2019 to June 30, 2020 using the following actuarial assumptions, applied to all periods included in the measurement:

- Actuarial cost method Entry Age Normal level % of pay.
- Investment return 2.66% S&P 20 Year Municipal Bond Rate.
- Salary growth Effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.
- Participation rate:
 - Eligible retirees will elect to participate Pre age 65 at 50%
 - Eligible retirees will elect to participate Post age 65 at 70%

The actuarial assumption used in the June 30, 2019 valuation were based on the results of an actuarial experience study that was performed for the five year period ending June 30, 2015.

The following assumptions were used to determine the contribution rate:

- The results of the actuarial valuation as of June 30, 2018 determined the employer contribution rate for fiscal year 2020.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates and retirement ages were based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 for both males and females for healthy annuitants and for dependent beneficiaries. For disabled annuitants, the RP-2000 Combined Disabled Tables with age set back 7 years for males and 3 years for females for disabled annuitants. (A unisex table based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 years for both genders

assuming the population consists of 25% males and 75% females is used to determine actuarial equivalent benefits.)

Investments consist primarily of short-term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

OPEB - Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	50.3%	-1.0%
US Core Fixed Income	46.5%	-0.1%
Non-US Developed Fixed	3.2%	-0.1%
	100%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2020.

Discount Rate

The discount rate used to measure the Total OPEB Liability was 2.66%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short-term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.66% which represents the S&P 20 year Municipal Bond Rate at June 30, 2020, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the System Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2020, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2020, 93,693 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2020, 688 members were receiving less than the maximum amount allowed of \$1,200 per year. The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the System net OPEB liability for June 30, 2020, calculated using current Healthcare cost trends as well as what the System net OPEB liability would be if it health cost trends were 1-percentage point lower or 1-percentage point higher than the current rate:

	Current					40/ Income of
		1% Decrease		Trend Rate		1% Increase
System net OPEB liability	\$	9,893,000	\$	9,894,000	\$	9,895,000

Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability, calculated using the discount rate of 2.66%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.66%) or 1-percentage-point higher (3.66%) than the current rate:

	1% Decrease 1.66%		Di	Current sount Rate 2.66%	19	% Increase 3.66%
District's proportionate share of the net OPEB liability	\$	11,280,000	\$	9,894,000	\$	8,746,000

OPEB Plan Fiduciary Net Position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at <u>www.psers.pa.gov</u>.

Single Employer OPEB Plan

In accordance with the PA School Code of 1949, as amended, medical coverage is provided to eligible retirees and spouses with the retiree paying the full active premium rate for coverage until age 65. This benefit has an implicit rate subsidy based upon GASB Statement No. 45, since the retiree pays the premium at the insurance carrier's global rate charged to the School District versus an age-adjusted rate, as defined in the GASB Statement.

Plan Description

East Penn School District has one single-employer defined benefit plan with the pertinent descriptions shown on the tables below:

		Summary of Plan Provisions	
Group	Eligibility	Coverage and Premium Sharing	Duration
<u>I. ADMINISTRATORS</u>	Retention Incentive Program – (RIP) – must complete 5 years with the district and retire through PSERS. Other – must attain age 55 and retire through PSERS.	 Coverage: Medical, Prescription Drug, and Dental. Premium Sharing: If the member retires under the RIP or previously under the ERIP, the district will pay for the amount of the PPO retiree medical and prescription drug plan for the member only. Any difference in premiums must be paid for by the individual. Spouses may elect coverage by paying the full premiums. Member and spouse may also elect dental coverage by paying the full premiums. If the member does not meet the requirements for the district subsidy but requirements are met to retire through PSERS, the member and spouse may continue coverage by paying the full premiums. Upon death of active employee or retiree, the spouse may continue coverage until Medicare Age. Dependents: Spouses included. 	 Member –Benefits cease upon Medicare age. Spouse –Benefits cease upon Medicare age.
<u>II. TEACHERS</u>	Early Retirement Incentive Program (ERIP) – must attain age 54, but not exceed age 60, and complete 15 consecutive years with the district and retire through PSERS. Other – must attain age 55 and retire through PSERS.	 Coverage: Medical, Prescription Drug, and Dental. Premium Sharing: If the member retires under the ERIP, the district will pay for the amount of the PPO retiree medical and prescription drug plan for the member only. Any difference in premiums must be paid for by the individual. Spouses may elect coverage by paying the full premiums. Member and spouse may also elect dental coverage by paying the full premiums. Upon the death of a retiree, the spouse may continue coverage until Medicare age. Dependents: Spouse included. 	Same as I

Summary of Plan Provisions							
Group	Eligibility	Coverage and Premium Sharing	Duration				
III. SUPPORT STAFF	Must attain age 55 and retire through PSERS.	 Coverage: Medical, Prescription Drug and Dental. Premium Sharing: The member and spouse may elect medical, prescription drug, and dental coverage by paying the full premiums. 	Same as I.				
		• Upon death of active employee or retiree, the spouse may continue coverage until Medicare Age.					
		Dependents: Spouse Included.					

Notes: PSERS Retirement:

- Pension Class T-C or T-D: An employee is eligible for PSERS retirement if he (or she) is eligible for either: i) PSERS early retirement while under 62 with 5 years of PSERS Service or ii) PSERS superannuation retirement upon reaching age 60 with 30 years of PSERS service, age 62 with 1 year of PSERS service or 35 years of PSERS service regardless of age. In general, these pension classes apply to individuals who were members of PSERS prior to July 1, 2011.
- 2) Pension Class T-E or T-F: An employee is eligible for PSERS retirement if he (or she) is eligible for either: i) PSERS early retirement while under 65 with 10 years of PSERS Service or ii) PSERS superannuation retirement upon reaching age 65 with 3 years of PSERS service, or upon attainment of a total combination of age plus service equal to or greater than 92 a minimum of 35 years of PSERS service. In general, these pension classes apply to individuals who became members of PSERS on or after July 1, 2011 and prior to July 1, 2019.
- 3) Pension Class T-G: An employee is eligible for PSERS retirement if he (or she) is eligible for either: i) PSERS early retirement while under 67 with 10 years of PSERS Service or ii) PSERS superannuation retirement upon reaching age 67 with 3 years of PSERS service upon attainment of a total combination of age plus service equal to or greater than 97 with a minimum of 35 years of PSERS service. In general, this pension class applies to individuals who became members of PSERS on or after July 1, 2019.
- 4) Pension Class T-H: An employee is eligible for PSERS retirement if he (or she) is eligible for either: i) PSERS early retirement while under 67 with 10 years of PSERS Service or ii) PSERS superannuation retirement upon reaching age 67 with 3 years of PSERS service. In general, this pension class applies to individuals who became members of PSERS on or after July 1, 2019.
- 5) All individuals except for those in Pension Class T-G are eligible for a special early retirement upon reaching age 55 with 25 years of PSERS service. Individuals in Pension Class T-G are eligible for a special early retirement upon reaching age 57 with 25 years of PSERS service.

Cash Payments: Cash payments are not GASB 45 liabilities

- Financial Incentives under the ERIP are valued under GASB 47. (Note: All current administrators elected the RIP and therefore, are not eligible for the Financial Incentives under ERIP.)
- Financial Incentives under the RIP are valued under GASB 68.

* The final schedule of this valuation contains supplemental calculations under GASB 68. The benefit provision is as follows:

Administrators who qualify for PSERS retirement and have worked for the district are entitled to a one-time payment equal to the individual's base salary times a percentage which is the sum of A) 1% times services prior to age 49, plus B) 2% times service for ages between 50-54, plus C) 3% times service for ages greater than 55.

Employees Covered by Benefit Terms

At June 30, 2021, the following employees were covered by the benefit terms:

Active Participants	771
Vested Former Participants	0
Retired Participants	<u>56</u>
Total	827

Total OPEB Liability

The School's total OPEB liability under this single employer plan of \$22,771,776, was measured as of June 30, 2021, and was determined by an actuarial valuation as of July 1, 2020.

Actuarial Assumptions and Other Inputs

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the benefits and the annual required contributions of the employer are subject to continual revision, actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress, presented as required supplementary information, provides multiyear trend information that shows whether the actuarial value of plan Net Position is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the district and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

	Single Employer OPEB Healthcare <u>Benefit</u>
Actuarial Valuation Date	7/1/2020
Actuarial Cost Method	Entry Age Normal
Interest Rate	1.86%
Projected salary increases	3.50% to 6.25%
	5.5% in 2018 through 2023. Rates gradually decrease from 5.4% in 2024 to 4.0% in 2075 and later based on the Society of Actuaries Long-Run Medical Cost Trend
Healthcare inflation rate	Model.
Asset Valuation Method	pay as you go basis

The discount rate is based on S&P Municipal Bond 20-year high grade rate index at July 1, 2020.

Mortality rates are assumed pre-retirement and post-retirement using the rates assumed in the PSERS defined benefit pension plan actuarial valuation. Incorporated into our retirement table are rates projected generationally by the Buck Modified 2017 projection scale to reflect mortality improvement.

Changes in the Total OPEB Liability

Total OPEB Liability	<u>2020-21</u>					
Service Cost	\$	1,396,859				
Interest Observes in Demostry Terror		689,319				
Changes in Benefit Terms		-				
Difference between expected and actual experience		(876,000)

<u>OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to</u> <u>OPEB</u>

For the year ended June 30, 2021, the School recognized OPEB expense of \$1,877,014. At June 30, 2021, the School reported deferred outflows of resource and deferred inflows of resources related to this single employer OPEB plan from the following sources:

Sources	0	Deferred outflows of Resources	Deferred Inflows of Resources			
Changes in Assumptions	\$ 2,167,087		\$	-		
Net difference between projected and actual investment earnings		-		-		
Difference between expected and actual experience		-		4,395,588		
Changes in proportion of the Net OPEB Liability		-		-		
District contributions subsequent to the						
measurement date		459,931		-		
Total	\$	2,627,018	\$	4,395,588		

Amounts reported as deferred outflows of resources and deferred inflows of resources related to this single employer OPEB plan will be recognized in OPEB expense as follows:

Year ended June 30:	<u>Amount</u>
2022	\$ (209,164)
2023	(209,164)
2024	(209,164)
2025	(209,164)
2026	(209,164)
Thereafter	 (1,182,681)
Total	\$ (2,228,501)

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the School's single employer OPEB plan, as well as what the School's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (0.86%) or 1-percentage point higher (1.86%) than the current discount rate:

	1% Decrease 0.86%		D	Current isount Rate 1.86%	1% Increase 2.86%		
District's proportionate share of the net OPEB liability	\$	24,583,865	\$	22,771,776	\$	21,034,449	

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the total OPEB liability of the School's single employer OPEB plan, as well as what the School's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage point or 1-percentage point than the current healthcare cost trend rates:

	19	% Decrease	٦	Current Frend Rate	1	1% Increase		
System net OPEB liability	\$	19,796,592	\$	22,771,776	\$	26,315,211

Note 6 - Tax Increment Financing Agreement – Hamilton Crossing

On June 23, 2014, East Penn School District entered a Tax Increment Financing Agreement.

Under the authority of the Pennsylvania Tax Increment Financing Act, the local taxing body (East Penn School District) is to provide 50% of necessary financing to TGG/TCH-Hamilton Crossings Associates, L.P. (the developer) to undertake retail and commercial development on 63 acres of land located in Lower Macungie Township.

Under the authority of the Pennsylvania Tax Increment Financing Act, the developer must complete the project dependent upon the requirements including infrastructure improvements as such: Road improvements to Route 222 Bypass, Krocks Road and Hamilton Boulevard, facilities to manage and infiltrate storm water and control regional flooding, to upgrade utility facilities, fund capitalized interest (if any), and fund issuance costs of obligations.

Full aggregate market value of all taxable real property located within the TIF district as of the effective date of creation is \$2,863,200.

East Penn School District pledges to pay over to the authority to be held in a TIF Agreement 50% of the real estate taxes assessed on the TIF District properties for each year within the agreement based upon the calculation below:

East Penn School District Pledged Increment = (.50 x (the annual current assessment less the Tax Increment Base) x School District mileage at current year's calculation.

The developer is to pay annually assessed property taxes on all properties within the TIF District, amounts pledged to be contributed by the School District and other TIF Agreement Parties will be deposited into the TIF Agreement Escrow account (split into both school district and township contributions), held by the authority, to be used in payment or trust for Obligations associated with project expenses.

Upon completion of payment for project obligations, any remaining monies held within the School District's portion of the TIF Agreement Escrow account held by the Authority will be returned to the School District.

Upon completion, the recipient of the TIF Tax Increment agrees to continue to pay 100% of real estate taxes on land and improvements in which the School District and Township will keep 100% of going forward. Additionally, the recipient agrees not to file any tax assessment appeal during the term of the TIF debt.

<u>Calender</u> Year End	Estimated Incremental TIF Contribution

TOTAL	<u>\$ 11,720,339</u>

Projected Tax Revenue Reduction for School District of TIF Agreement

Estimated surplus amounts which will be turned over after TIF obligations have been settled, and will be reimbursed to East Penn School District total \$4,095,697.

Note 7 - Risk Management

The District is subject to risk of loss from employee acts, property damage, personal injury auto accidents, theft, etc. The District covers those risks through the purchase of commercial insurance. The District's Workmen's compensation policy is a retrospectively rated policy; the final total premium is based on the actual payroll for the policy year and is determined by the insurance company. Any settlements received by the District or its employees did not exceed insurance coverage in any of the last three years.

Note 8 - Prior Period Adjustments - General Fund/Fiduciary Funds

	F	iduciary Funds	Gener Fune		Governmental Activities		
Fund Balance/Net Position - June 30, 2020 (as reported)	\$	158,164	\$ 17	,719,387	\$	(93,750,768)	
As a result of the new accounting principle GASB Statement No. 84, a prior period adjustment needed to be made pertaining to Scholoarship Funds that no longer met the new definition of a Fiduciary Fund and as a result needed to be							
reclassified into the General Fund		(103,148)		103,148		103,148	
Fund Balance/Net Position - June 30, 2020 (restated)	\$	55,016	\$ 17	,822,535	\$	(93,647,620)	

Note 9 - Fund Balance Allocations

Nonspendable Fund Balance

The General Fund has \$0 in nonspendable fund balance at year end.

Restricted Fund Balance

The Capital Reserve Fund's \$14,775,763 fund balance at year end is restricted because of enabling legislation under the Municipal Code in Pennsylvania. Section 1432 of this Code restricts the use of resources for limited purposes. The General Fund has \$141,723 of contributions restricted at year end.

Committed Fund Balance

There are no commitments of fund balance this year.

Assigned Fund Balance

The General Fund has 9,398,425, assigned for appropriations in the 2021-22 budget.

Note 10 - Net Investment in Capital Assets

The portion of net position for governmental activities, shown on the government-wide statement of net position invested in capital assets, net of related debt is \$105,538,657. The business-type activities column reflects \$532,994 invested in capital assets with no related debt. In addition, \$14,775,763 of net position in the governmental activities column has been restricted for future capital projects.

Note 11 - Contingencies

Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and a condition specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund, or other applicable funds. However, in the opinion of management any such disallowed claims will not have a material adverse effect on the overall financial position of the School District as of June 30, 2021.

Litigation

In accordance with management, there are no legal matters that could materially affect the financial position of the District as of June 30, 2021.

Note 12 - New Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued the following standards, which have not yet been implemented:

- Statement No. 87, Leases The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement requires certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Effective date: Periods beginning after June 15, 2021.
- Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period The objectives of the statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before construction ends. This standard requires expensing interest costs when incurred rather than capitalizing the costs. Effective date: Periods beginning after December 15, 2020.

- Statement No. 91, *Conduit Debt Obligations* The primary objective is to provide a single method of reporting conduit debt obligations by issuers associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. Effective date: Periods beginning after December 15, 2021.
- Statement No. 92, Omnibus 2020 The primary objective is to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including (1) effective date of Statement No 87, Leases for interim financial reports (2) Reporting of intra-entity transfers between primary government employer and a component unit defined benefit pension plan or defined benefit OPEB plan (3) Applicability of certain requirements of Statement No 84 (4) Measurement of liabilities related to AROs (5) Reporting risk pools for amounts that are recoverable from reinsurers or excess insurers (6) Reference to nonrecurring fair value measurements of assets or liabilities in authoritative literature. (7) Terminology used to refer to derivative instruments. Effective date: Periods beginning after June 15, 2021.
- Statement No. 93, *Replacement of Interbank Offered Rates* The primary objective of this Statement is to address the issue the London Interbank Offered Rate (LIBOR) is being replaced with an interbank offered rate (IBOR). Effective date: Periods beginning after June 15, 2021.
- Statement No. 94, *PPP's* The primary objective of this Statement is to improve financial reporting related to public-private and public-public partnership arrangements (PPPs). A PPP is defined in which (1) the operator collects and is compensated by fees from third parties: (2) the transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services: and (3) the transferor is entitled to significant residual interest in the service utility of the underlying PPP asset at the end of the arrangement. Effective date: Periods beginning after June 15, 2022.
- Statement No. 96, Subscription-Based Information Technology Arrangements This statement provided guidance on accounting and financial reporting for subscription-based information technology arrangements (SBITAs). This Statement (1) defines a SBITA; (2) establishes that a SBITA results in a right-to use subscription asset – and intangible asset – and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. Effective date: Periods beginning after June 15, 2022

Public School Employees' Retirement System

Changes of Benefit Terms

None

Changes in Assumptions

During this fiscal year, there were no changes in assumptions used in the prior reporting period.

Methods and Assumptions Used in Calculations of Actuarially Determined Contributions

The actuarially determined contributions, by PSERS, are calculated as of the June 30 preceding the fiscal year in which contributions are made. It does not include an adjustment made for the difference between projected vs actual contributions or separately financed liabilities. The following methods and assumptions were used to determine contribution rates reported:

- Investment return 7.25%, includes inflation at 2.75%.
- Salary increases Effective average of 5.0%, which reflects an allowance for inflation of 2.75%, and 2.25% for real wage growth and merit or seniority increases.
- Benefit payments no postretirement benefit increases assumed in the future.
- Multiple decrement tables mortality, vesting, retirement age, and withdrawal estimates are based upon tables provided by the actuary.

Proportionate Share of the Net Pension Liability

The amount reported as the District's proportionate share of the net pension liability (asset) does not include the adjustment for the difference between projected vs actual contributions made and the adjustment for the difference between proportionate share vs actual paid separately financed liabilities.

Other Postemployment Benefits – Teachers Health Insurance Assistance

Changes of Benefit Terms

None

Changes in Assumptions

The discount rate used to measure the Total OPEB liability decreased from 2.79% as of June 30, 2020 to 2.66% as of June 30, 2021.

Methods and Assumptions Used in Calculations of Actuarially Determined Contributions

The actuarially determined contributions, by PSERS, are calculated as of the June 30 preceding the fiscal year in which contributions are made. It does not include an adjustment made for the difference between projected vs actual contributions or separately financed liabilities. The following methods and assumptions were used to determine contribution rates reported:

- Investment return 2.66% S&P 20 Year Municipal Bond Rate.
- Salary increases Effective average of 5.0%, which reflects an allowance for inflation of 2.75%, and 2.25% for real wage growth and merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.

- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.
- Participation rate:
 - Eligible retirees will elect to participate Pre age 65 at 50%
 - Eligible retirees will elect to participate Post age 65 at 70%

The following Assumptions were Used to Determine the Contribution Rate:

- The results of the actuarial valuation as of June 30, 2018 determined the employer contribution rate for fiscal year 2020.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates and retirement ages were based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 for both males and females for healthy annuitants and for dependent beneficiaries. For disabled annuitants, the RP-2000 Combined Disabled Tables with age set back 7 years for males and 3 years for females for disabled annuitants. (A unisex table based on the RP-2000 Combined Healthy Annuitant Tables with age set back 3 years for both genders assuming the population consists of 25% males and 75% females is used to determine actuarial equivalent benefits.)

Proportionate Share of the Net OPEB Liability

The amount reported as the District's proportionate share of the net opeb liability (asset) does not include the adjustment for the difference between projected vs actual contributions made and the adjustment for the difference between proportionate share vs actual paid separately financed liabilities.

Other Postemployment Benefits – Single Employer Healthcare Plan

Changes of Benefit Terms

No changes this year.

Changes in Assumptions

The discount rate changed from 3.36% to 1.86%. The trend assumption was updated.

Methods and Assumptions Used in Calculations of Actuarially Determined Contributions

- Actuarial Cost Method Entry Age Normal
- Salary Increases 3.50% to 6.25%
- Healthcare cost trend rate –5.5% in 2020 to 2023. Rates gradually decrease from 5.4% in 2024 to 4.0% in 2075 based on the Society of Actuaries Long-Run Medical Cost Trend Model
- Asset Valuation Method Pay as you go basis
- Discount Rate The rate of 1.86% is based on S&P Municipal Bond 20-year high grade rate index at July 1, 2020.

Note 1 - Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of East Penn School District under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of the Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of East Penn School District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of East Penn School District.

Note 2 - Significant Accounting Policies

The accompanying Schedule of Expenditures of Federal Awards is presented on the modified accrual basis of accounting for all federal awards charged to governmental funds and on the accrual basis of accounting for all federal awards charged to proprietary funds, as contemplated by generally accepted accounting principles.

Note 3 - Organization and Scope

The District recognized 2.6% of its total general fund revenue in federal awards, and 83.9% of its total enterprise fund revenue.

Note 4 - Indirect Costs

The District did not charge any indirect costs to any of their federal grants and programs during this fiscal year. As such, the District did not use the 10% de minimis cost rate.

Note 5 - Program Disclosure - Footnotes

- 1. The federal award, passed through the Carbon-Lehigh I. U., under the U.S. Department of Education heading, is part of a consortium of participating school districts. In accordance with directions from the Commonwealth of Pennsylvania, these awards are reported on the basic financial statements as local source revenue.
- 2. The federal award, passed through the Lancaster-Lebanon Intermediate Unit #13, under the U.S. Department of Education heading, is part of a consortium of participating school districts. In accordance with directions from the Commonwealth of Pennsylvania, these awards are reported on the basic financial statements as local source revenue.
- **3.** The Federal Grants were passed through the following entities in the totals below:

			<u>Total</u>
<u>To</u>	tal Awards	<u>Ex</u>	penditures
\$	2,785,852	\$	2,860,488
	696,852		696,852
	2,990,062		1,532,841
	4,500		3,500
	N/A		36,704
	N/A		155,620
\$	6,477,266	\$	5,286,005
	\$	696,852 2,990,062 4,500 N/A N/A	\$ 2,785,852 \$ 696,852 2,990,062 4,500 N/A N/A

- **4.** The Transportation Access passed through the Carbon Lehigh I.U. is reflected as federal local source revenue on the basic financial statements; however, pursuant to instructions from the Commonwealth of PA. it is not reported as revenue on the Schedule of Federal Awards.
- **5.** The District received non-monetary assistance from the U.S. Department of Agriculture of \$137,077 in the form of commodities. These commodities are valued at U.S.D.A.'s approximate costs. During the 2020-21 fiscal year, the District used \$155,620 in commodities and established a year-end inventory of \$21,863 at June 30, 2021.
- **6.** The amount recognized as revenue in the Schedule of Expenditures of Federal Awards, under the U.S. Department of Agriculture heading, represents the commodities used versus the commodities received, which are recognized as revenue in the basic financial statements.
- **7.** The Medical Access grant passed through the PA Department of Education is reflected as federal source revenue on the basic financial statements; however, pursuant to instructions from the Commonwealth of PA, it is not reported as revenue on the Schedule of Federal Awards.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of School Directors East Penn School District 800 Pine Street Emmaus, PA 18049

We have audited, in accordance with the auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparison statement of the general fund of the East Penn School District, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise East Penn School District's basic financial statements, and have issued our report thereon dated November 10, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered East Penn School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of East Penn School District's internal control. Accordingly, we do not express an opinion on the effectiveness of East Penn School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

1825 Franklin Street Northampton, Pennsylvania 18067 - 1573 tele} 610/ 262/ 1280 fax} 610/ 262/ 1756 www.gormanandassociates.org

Compliance and Other Matters

As part of obtaining reasonable assurance about whether East Penn School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

Hornes : Resocutor P.C.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of School Directors East Penn School District 800 Pine Street Emmaus, PA 18049

Report on Compliance for Each Major Federal Program

We have audited East Penn School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of East Penn School District's major federal programs for the year ended June 30, 2021. East Penn School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of East Penn School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the audit requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about East Penn School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of East Penn School District's compliance.

Opinion on Each Major Federal Program

In our opinion, East Penn School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

1825 Franklin Street Northampton, Pennsylvania 18067 - 1573 tele} 610/ 262/ 1280 fax} 610/ 262/ 1756 www.gormanandassociates.org

Report on Internal Control over Compliance

Management of East Penn School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered East Penn School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of East Penn School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section, and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

Horner : Resocutor P.C.
