Middle School Scenarios-

- *Review of district map and boundaries- comparison of middle school capacities to projected student enrollments
- *Reviewed 6-8 enrollment projections for each school building
 - Eyer* has space but higher class sizes (not enough staff to meet preferred capacity)
 - LMMS* is out of space, but has staff to meet preferred capacity.
 - LMMS* also has a disproportionate number of single family homes functioning as multi-family homes as compared to Eyer.
